Subject: 1462 Granville St

On the Notice card I got in the mail this proposal is characterized as "Manufacturing - Brewing or Distilling." On the Design Drawings it is indicated as "Distillery." This needs clarification. I am willing to support a brewery with an attached pub and/or restaurant, but not a distillery. It also needs to be made clear whether this facility will displace the potential for a proper liquor store in the Vancouver House complex. If it does, then it is unacceptable.
