Vancouver to continue their important education and intervention work, and to build their fundraising capacity;

11. The City of Vancouver has invested greatly in developing a Nighttime Economy, including passing a recent motion to create “A Comprehensive Strategy for Realizing the Full Potential of the Nighttime Economy in the City of Vancouver”. This work includes keeping the safety of the local workforce in mind, particularly as women constitute a majority of workers in hotels, restaurants and bars and commonly experience sexual harassment in these industries;
12. Attracting greater numbers of tourists and local residents to our downtown social district can yield greater nightlife vibrancy and economic growth, and it can place demands on public safety and create additional risks for vulnerable people, including service and hospitality staff.

THEREFORE BE IT RESOLVED THAT Vancouver City Council direct staff to report to Council on recommendations and actions to ensure the safety of women working in the service and hospitality industry, with a specific focus on the Granville Entertainment District and Vancouver’s luxury hotels. In the development of this report Council direct staff to:

- i. Meet with downtown hotel/restaurant owners, related association, service worker advocate groups (unions and community advocates) to formulate recommendations on how to combat the growth of sexual violence in Vancouver’s hospitality and service industries and in the workplace;
- ii. Explore ways to end sexual violence in the city, including in Vancouver hotels, restaurants and bars, as part of its work on the UN Women Safe Cities work and the upcoming nighttime economy strategy;
- iii. Report back with implications of and options for mandating sexualized violence prevention training for hotel and restaurant staff as part of either the liquor licence or business licence approval process;
- iv. Report back on options for conducting audits of venues to ensure the staff and environment minimize risk of sexual violence incidents; including working toward a common policy for business operators that establishes a best practices standard for conduct.
