Meeting Date: February 25, 2020
[Submit comments to Council](#)

TO: Vancouver City Council
FROM: General Manager of Engineering Services
SUBJECT: Local Improvement – Approval of Billing Rates for Projects Completed in 2019

RECOMMENDATION

- A. THAT the billing rates for lane paving and lane speed hump Local Improvement projects completed in 2019 be approved by Council.
- B. THAT the Director of Legal Services be instructed to prepare the necessary debenture by-law(s) with this report's approval by Council.

REPORT SUMMARY

This report requests Council approval of billing rates to charge property owners for their share of local improvement projects certified complete in 2019. Approval of this report will allow the City to bill the individual property owners their share of the costs.

COUNCIL AUTHORITY/PREVIOUS DECISIONS

Policies governing the Local Improvement process are set out in the Vancouver Charter and the Local Improvement Procedure By-law (#3614).

Section 508(c) of the Vancouver Charter and Section 9.20 of the Local Improvement Procedure By-law provide that, by resolution, Council may establish a rate per foot frontage with respect to any two or more projects of a like nature, based on the average cost per foot frontage of such projects.

CITY MANAGER'S/GENERAL MANAGER'S COMMENTS

The General Manager of Engineering Services recommends approval of this report.

REPORT

Background/Context

Property owners may request to construct improvements in their local area through the Local Improvements Program. Projects are initiated through a petition process and the costs are shared between the City and the benefiting property owners. The program facilitates advancement of lower-priority, locally-serving projects where there is resident support. Typical Local Improvement projects include lane paving or lighting, or the construction of traffic calming features such as traffic circles or lane speed humps.

Billing rates for Local Improvement projects must be established for each Local Improvement project type in accordance with the Vancouver Charter and Local Improvement Procedure Bylaw. This report seeks Council approval of billing rates for the property owners' share of five (5) projects that were completed in 2019.

The billing rates are calculated as the average cost per foot of frontage of adjacent properties for similar, recently completed Local Improvement projects. Also, billed amounts must not exceed by more than 10% the estimated costs approved by Council at the respective Courts of Revision.

Local Improvement projects certified complete in 2019 include:

- Four lane paving projects that will be billed a total of \$254,958.66 to 86 properties based on an assessed frontage of 3,215.13 feet and a billing rate of \$79.30 per foot.
- One speed hump project that will be billed a total of \$3,729.80 to 8 properties based on an assessed frontage of 247.50 feet and a billing rate of \$15.07 per foot.

The total actual cost of four lane paving projects was less than their total estimated costs presented to Council at their respective Courts of Revision. Lower actual costs were due to savings on material costs, construction crew efficiency and conservative cost estimates.

The property owner may pay their billed amount interest free, by April 3, 2020. After this date Legal Services will prepare a debenture by-law for Council enactment, enabling the City to apply unpaid amounts as annual charges to property taxes. Lane paving and lane speed hump charges would be amortized over 15 years.

Attached to this report is the "Local Improvement List of Projects Certified Complete in 2019" (Appendix A) which details the costs and the billing rates of the projects.

Strategic Analysis

Approval of this report establishes billing rates for recovery of each property owner's share of Local Improvement project costs.

Financial Implications

A total amount of \$258,688.46 would be recovered from the property owners.

CONCLUSION

Approval of the billing rates is the final formal step in the Local Improvement process, prompted by the project's completion. It is recommended that the billing rates be approved allowing for the recovery of the property owner's share of the project's costs. Costs not recovered by the billing due date will be added to the individual owner's property taxes upon Council enactment of the debenture by-law prepared by Legal Services.

**LOCAL IMPROVEMENT PROJECTS CERTIFIED COMPLETE IN 2019
SUMMARY**

TYPE OF IMPROVEMENT	ESTIMATED P.O. SHARE	ACTUAL P.O. SHARE	INTERIM INTEREST INCLUDED	TEMPEST ADJUSTMENT	BILLING TOTAL
Lane Paving	\$323,685.00	\$254,959.82	\$6,218.53	-\$1.16	\$254,958.66
Speed Humps	\$4,000.00	\$3,729.83	\$90.97	-\$0.03	\$3,729.80
TOTALS	\$327,685.00	\$258,689.65	\$6,309.50	-\$1.19	\$258,688.46

I hereby certify that the parts of the above mentioned projects to be assessed against the rateable real properties benefited thereby are complete.

Certified that the above projects have been completed and were approved by Vancouver City Council on the 25th day of February, 2020.
