06/24/2020	21:23	Support	As a life time Vancouver resident, and a person who has lived in older homes in for most of his life, I fully support the application to maintain this wonderful Heritage home and add much needed density for additional housing on the West Side of Vancouver. The design has been very tastefully done, maintaining the majority of the original characteristics of the original heritage home, and adding sympathetic infill housing to the balance of this large property. This is exactly the type of project the neighbourhood needs more of, and there are already a number of similar type projects that have been built in the past. I hope you will approve the application.
