06/25/2020	12:50	Oppose	We can't handle another tower in this area. You will create the most tightness area in Vancouver by allowing to build this new tower - why? It will block our light, air will be bad, more noise. But less green places, less option to park, roads will be more busy, food stores are not enough here, not enough schools and pre-schools. It's too much for this block - so why do you want to make our life so bad? With new Butterfly, Patina, Vancouver tower and the new 2 towers of Barclay Village - it's enough. Please don't let another tower to build here. This is West End and not Dead end.	No Name No Name (ps)		"s. 22(1) Personal"	West End	No web attachments.
06/25/2020	15:27	Oppose	Hello I didn't know that I have to send it to this address I only sent to the Mayor and Councillors. I support Councillor Peter Fry's motion about Mental Health and I oppose the Nelson Street construction. I oppose all public hearings during the pandemic. This is not public engagement.	Ms DIANA MATRICK		"s. 22(1) Personal and Confidential"	West End	See Attached
