REZONING: 1059-1075 Nelson Street	Support	I have been following up with this project for the last two years and I am very excited to see this landmark building coming along in a good progress. From my opinion, it provide a great mix of uses in market condo, rental and social housing. We do need more community workers live and work Downtown. At the same time, the passive building really convey a positive image for the future of Vancouver. Love it and I will support such great projects.
