TO: Standing Committee on Policy and Strategic Priorities
FROM: Director of Finance
SUBJECT: Quarterly Capital Budget Adjustments and Closeouts

RECOMMENDATION

- A. THAT Council approve capital budget and funding adjustments to the Multi-Year Capital Project Budget totalling a net decrease of \$0.7 million, consistent with Council direction to begin implementation of the recalibrated capital plan through quarterly adjustment reports and the 2021 annual budget. As a result of the adjustments, which include new external funding received by the City, the 2019-2022 Capital Plan will increase by \$11.7 million, as outlined in this report and Appendices 2 and 3; with no change to the current overall 2020 Capital Expenditure Budget.
- B. THAT, as part of the quarterly Capital Budget closeout process, Council approve the closeout of 4 capital projects that were completed with a surpluses or deficits exceeding \$200,000, as outlined in this report and Appendix 4.
- C. And THAT Council receive for information the budget surpluses or deficits for capital projects included in this quarter closeout that were funded by voter-approved capital funding, as noted in Appendix 5.

REPORT SUMMARY

On July 25, 2018, Council approved the 2019-2022 Capital Plan as a guiding document for capital investments for 2019 through 2022. The COVID-19 pandemic has posed significant financial constrain on the City. Extensive work has been undertaken in the past few months to recalibrate the Capital Plan to reflect the fiscal reality while maintaining the City's infrastructure and amenities in a state of good repair, and to advance Council priorities on climate emergency response, equity and resilience. Subsequently, on September 16, 2020, Council approved the

2019-2022 Capital Plan recalibration in principle, with motions on priorities, as part of the COVID-19 Pandemic Response & Recovery.

This quarterly capital budget adjustments report includes a project budget reduction to implement Council's motion to defer Archives Relocation project to the next capital plan. In addition, to advance Council's priority of protecting and building a resilient local economy and addressing affordability and the housing crisis, this report recommends an increase of \$12.5 million Multi-Year Capital Projects Budgets to initiate the planning, scoping and detailed design of Grandview Fire Hall renewal & expansion, together with the co-location of affordable housing initiative. In addition, this report proposes a project budget increase of \$1.5 million to support the Permanent Modular Housing Initiatives. In the Capital Plan Recalibration report, Council approved \$4.5 million funding reallocation from the emerging priorities envelope to advance equity related initiatives. This report accordingly includes a project budget request to increase the Multi-Year Capital Project Budget of planning and research initiative in support of staff and consultants working with Community Partners. Also, this report captures budget adjustments related to external funding contributions committed since the Capital Plan Recalibration including donation from Vancouver Fraser Port Authority for Crab Park improvements and commitments from Translink and developers under service agreements for prioritized Engineering capital projects.

In conjunction with the quarterly Capital Budget review process and in accordance with the City's Capital Budget Policy, Council approval is requested to close 4 capital projects that were completed with surpluses or deficits exceeding \$200,000. Also in accordance with the City's Capital Budget Policy, this report includes for Council information all budgets surpluses or deficits for completed capital projects that were funded by voter-approved capital funding, as noted in this report.

COUNCIL AUTHORITY/PREVIOUS DECISIONS

- In April 2018, Council approved a revised Capital Budget Policy
- In July 2018, Council approved the 2019-2022 Capital Plan
- In December 2019, Council approved the 2020 Capital Budget
- In September 2020, Council approved the 2019-2022 Capital Plan Recalibration

CITY MANAGER'S COMMENTS

The City Manager recommends approval of the foregoing.

REPORT

Background/Context

In July 2018, Council approved the 2019-2022 Capital Plan as a guiding document for the next four years. The Capital Plan will evolve over the course of the four-year period, in order to address emerging needs and as additional development contributions and partnership funding are secured or reserve funding becomes available. The original Capital Plan contemplated \$2.771 billion of capital investments, comprised of \$2.203 billion City-led capital programs and

\$0.569 billion in-kind contributions achieved through development. The COVID-19 pandemic has posed significant financial strain on the City, our business community, non-profit partners, and residents. Extensive work has been undertaken in the past few months to recalibrate the Capital Plan to reflect the fiscal reality while maintaining a keen focus on maintaining the City's infrastructure and amenities in a state of good repair, as well as to advance Council priorities on climate emergency response, equity and resilience. In September, 2020, Council approved the recalibrated Capital Plan in principle, including approximately \$254 million adjustments to the 2019-2022 Capital Plan, reducing from ~\$2.90 billion to ~\$2.64 billion. Details on the 2019-2022 Capital Plan Recalibration are available online at <https://council.vancouver.ca/20200916/documents/cfsc1.pdf>.

The City's Capital Budget process has been developed to ensure assets and investments are managed comprehensively, with rigour and transparency, in a manner that ensures the City is achieving value for money and that staff resources are used efficiently. Base on the principle that the Capital Budget is the primary tool by which the City implements its four-year Capital Plan, providing the authority to proceed with specific capital programs and projects, this capital budget adjustment report focuses on project budget requests to implement the capital plan recalibration Council motions, to advance projects corresponding to Council priorities and to recognize external funding contributed by partners.

As part of the capital budgeting process and in accordance with the City's Capital Budget Policy, proposed adjustments to the Capital Plan and the Capital Budgets that require Council approval, and proposed closeouts of completed projects with surpluses or deficits greater than \$200,000 are presented to Council each quarter for approval.

Strategic Analysis

A. Capital Budget Adjustments

As part of the on-going work and oversight related to the City's Capital Plan and Capital Budget, staff periodically review priorities, respond to emerging needs, and where appropriate bring forward recommendations for adjustments to the Capital Budget and/or Capital Plan each quarter.

Changes to 2019-2022 Capital Plan and Multi-Year Capital Project Budgets

This report proposes an increase of **\$11.7 million** to the 2019-2022 Capital Plan, reflecting additional developer funding to advance projects in response to Council priorities as well as external donations and partner funding committed since capital plan recalibration. With the adjustments recommended in this report, the revised total 2019-2022 Capital Plan will be ~\$2.65 billion.

As a tool to implement the four-year Capital Plan, budget adjustments proposed in this report includes a \$24.6 million decrease to project budgets to administratively implement the recalibrated Capital Plan. This report proposes an increase of \$23.9 million for new or increased multi-year capital projects budgets, with a corresponding \$11.7 million increase to the Capital Plan from new external funding, focused on rolling out projects in response to Council Priorities. The following highlights the major recommended changes to Capital plan and Multi-Year Capital Project Budgets by Council Priorities:

\$5 million increase to the Capital Plan for Grandview Fire Hall Co-location of Affordable Housing

The project involves the renewal and expansion of Fire Hall #9 in Grandview Woodland area. \$40 million Capital Plan Emerging Priorities funding has been allocated towards this project in addition to the original \$3 million funding in the Capital Plan. At the time when the Capital Plan Recalibration was being finalized, the funding for co-location of affordable housing initiatives were still being defined. Now the cost estimate of the affordable housing scope has been sufficiently defined to be between \$23 million and \$37 million. This quarterly capital budget adjustments report includes request to increase the recalibrated capital plan by \$5 million, funded by Downtown South DCLs, to act on the housing initiative. The remaining funding need for implementation of affordable housing co-location at Grandview Fire Hall will be added to the Capital Plan as the project being scoped and planned. The overall project scope for civic facilities and affordable housing initiative includes:

- Renewing and expanding existing fire hall that was built in 1959, ~15,000 sq. ft.
- Relocating Vancouver Fire & Rescue Services headquarters from Strathcona Fire Hall, ~25,000 sq. ft.
- Relocating 311 call centre offices from Spyglass Place and expanding City of Vancouver Security offices from City Hall, ~5,000 sq. ft.
- Co-location opportunity for affordable housing. Unit mix and amount is yet to be determined, subject to how much housing can fit on site.

For planning & scoping and detailed design, activation of **\$7.5 million** project budget to support the civic facilities scope as well as **\$5 million** to advance the co-location of affordable housing initiatives is proposed in this report (\$0.5 million in 2019 Capital Budget). The project has been endorsed by the Capital Delivery Oversight Committee to proceed as quickly as possible during planning & scoping and detailed design phases in order to proceed to construction phase before the end of 2022, with the target to complete the project in 2025.

\$1.5 million increase to the Capital Plan for Permanent Modular Housing Initiative

To support Affordable Housing initiatives, an increase of \$1.5 million to the capital plan and to the corresponding project budget is included in this report for the Permanent Modular Supportive Housing Initiative. The City will partner with BC Housing and Canada Mortgage and Housing Corporation (CMHC) to deliver this initiative. The City have identified four potential sites that may have sufficient capacity to accommodate the initiative of 300-400 units of supportive housing. The cost estimate for Vancouver Affordable Housing Agency (VAHA) to prepare the site for development is approximately \$1.5 million, expected to be fully recoverable by partners. CMHC seed funding of \$550K has been awarded to put toward the pre-development costs. The remaining need for the preliminary funding will be committed by the City upfront with developer contributions, expected to be recovered from BC Housing and CMHC as the developments progress.

\$325,000 emerging priority funding approved through Capital Plan Recalibration to advance Equity Initiatives Program

This budget adjustment is to advance emerging priority funding approved through Capital Plan Recalibration to support Planning & Research related to Equity Initiatives. The budget is to support staff to work with community partners. The budget need to be in place to facilitate the hiring process starting in November, 2020.

In addition to the above changes to the Capital Plan, \$4.7 million external funding including \$2.2 million commitments from Translink and \$1.4 million developer contributions under service agreements are committed since Capital Plan Recalibration to support prioritized Engineering capital projects including Major Roads Rehabilitation and Traffic Signals Rehabilitation, etc., and \$1.0 million donations from Vancouver Fraser Port Authority to advance Crab park improvements.

Appendix 1 provides an overview of the updates to 2019-2022 Capital Plan, including updates since the capital plan recalibration and allocations proposed in this report. Appendix 2 provides details for the \$24.6 million administrative adjustments to implement the recalibrated Capital Plan. Appendix 3 provides additional details on the Multi-Year Capital Projects Budgets recommended in this report.

Summary of Proposed Changes

The current total recalibrated 2019-2022 Capital Plan is ~\$2.64 billion, with the additions of \$11.7 million proposed in this report, the revised total 2019-2022 Capital Plan will be ~\$2.65 billion

The current total of approved Multi-Year Capital Projects Budgets for all open projects is approximately \$1.66 billion. This report proposes a decrease of \$24.6 million for administrative adjustments to implement Recalibrated Capital Plan, an increase of \$23.9 million for new or increased capital projects budgets and a decrease of \$39.9 million for capital projects that were completed in the second and third quarter of 2020, resulting in a net decrease of \$40.6 million to the overall Multi-Year Capital Projects Budgets. With the project adjustments and closeouts recommended in this report, the revised total of the approved Multi-Year Capital Projects Budgets for all open projects will be ~\$1.62 billion.

Table 1 summarizes the changes to the 2019-2022 Capital Plan and Multi-Year Capital Projects Budgets as a result of the capital budget adjustments and closeouts recommended in this report.

Table 1 - Proposed Changes to 2019-2022 Capital Plan and Multi-Year Projects Budgets (\$ Millions)		
	2019-2022 Capital Plan	Multi-Year Capital Projects Budgets (for open projects)
Recalibrated Capital Plan / Budget	\$ 2,635.6	\$ 1,658.8
Adjustment Category		
A. Administrative adjustments to implement Recalibrated Capital Plan	\$ -	\$ (24.6)
B. New Initiatives	\$ 7.5	12.6
C. Budget increases/decreases to existing projects/programs*	\$ 4.2	11.3
D. Administrative consolidations, funding source changes	\$ -	\$ -
Proposed Adjustments	\$ 11.7	\$ -
Multi-year Project Closeouts		\$ (39.9)
Proposed Revised Capital Plan / Budget	\$ 2,647.3	\$ 1,618.1

*Budget increases and decreases to PEF capital project budgets are excluded from this table

2020 Annual Capital Expenditure Budget

Adjustments to annual expenditure budgets at a project level are generally managed within the departmental or Citywide annual capital expenditure budget envelope, with no changes to the overall Annual Capital Expenditure Budget. Expenditures in 2020 relating to the new or adjusted Multi-Year Capital Projects Budgets will be managed within the current overall 2020 Annual Capital Expenditure Budget of \$701.8 million.

B. Capital Closeouts

The Capital Closeout process is the mechanism by which the City's capital programs/projects are closed and completion deficits and surpluses identified. Closeout surpluses are transferred to a City-Wide capital account for funding future capital programs/projects. Funding of closeout deficits are addressed through budget adjustments included as part of the corresponding quarter's capital budget adjustments.

A total of 30 programs/projects with multi-year capital project budgets totalling \$39.9 million and expenditures of \$33.1 million were closed in the second and third quarter of 2020, with a net surplus of \$6.8 million.

This report seeks Council approval to close 4 capital projects/programs that were completed in the second and third quarter of 2020 with surpluses or deficits exceeding \$200,000. Explanations for the closeout surpluses and deficits are provided in Appendix 4.

Appendix 5 provides for Council information a summary of capital projects closed in the second and third quarter of 2020 that were funded from voter-approved capital funding.

CONCLUSION

The purpose of this report is to request Council approval of an increase of \$11.7 million to the 2019-2022 Capital Plan, \$24.6 million project budgets reduction to administratively implement Capital Plan Recalibration and \$23.9 million increase to Multi-Year Capital Projects Budgets (funded from additional external funding, 2019-2022 Capital Plan and budget reallocations). Expenditures in 2020 relating to the increases to Multi-Year Capital Project Budgets will be managed within the current overall 2020 Annual Capital Expenditure Budget of \$701.8 million.

A total of 30 projects/programs were completed in the second and third quarter of 2020, with an overall net surplus of \$6.8 million. This report also requests Council approval for the closeout of 4 capital projects and programs that were completed with surpluses or deficits exceeding \$200,000. This report also provides for Council information a summary of capital projects that were closed in the second and third quarter of 2020 that were funded from voter-approved capital funding.

					Multi-Year Project Budget					
B. New Initiatives to Address Priorities										
New projects that have been identified to address unforeseen urgent issues or new priorities emerging outside of the regular capital budget cycle.										
Impact on 2019-2022 Capital Plan	2019-2022 Capital Plan Service Category / Sub-Category		WBS	Project Name	Reason for Adjustment	Current	Change	Proposed	Funding Source(s) for Changes to Multi-Year Project Budget	Addition to 2019-2022 Capital Plan
Allocation from 2019-2022 Capital Plan	04. Community Facilities	C. Social Facilities	NEW	Equity Related Initiatives Planning & Research	Increase to Multi-Year Project Budget (funded from 2019-2022 Capital Plan): This budget adjustment is to increase the Multi-Year Project Budget of Planning and Engagement/Research related to Equity Initiatives. The project budget is to support staff and consultants to work with Community partners and the budget needs to be in place to facilitate the hiring process starting in November, 2020.	0	325,000	325,000	2019-2022 Capital Plan (Community Facilities/Social Facilities) Debenture Capital from Revenue	
Addition to 2019-2022 Capital Plan	01. Affordable Housing	E. Supportive Housing	New	Grandview Fire Hall - Co-location of Affordable Housing	Increase to Multi-Year Project Budget and 2019-2022 Capital Plan: Council approved the initiative to explore possibilities to co-locate affordable housing units with the Grandview Fire Hall through Capital Plan Recalibration. The cost estimate of the affordable housing component of the project is approximately \$37M, excluding the land acquisition cost, which will be funded through the existing land acquisition project budget. This budget request is to activate the planning and design phases of the affordable housing component to allow staff to initiate the procurement process for both civic facilities and affordable housing initiative.	0	5,000,000	5,000,000	Downtown South DCL	5,000,000
Allocation from 2019-2022 Capital Plan	07. Civic Facilities and Equip	B. Fire & Rescue	New	Renewal & Expansion of Grandview Fire Hall - Plan & Design	Increase to Multi-Year Project Budget (funded from recalibrated 2019-2022 Capital Plan): Council approved through Capital Plan Recalibration to allocate \$40 million funding reserved for emerging priorities funding to support the renewal and expansion of Grandview Fire Hall. The project involves the renewal and expansion of the existing fire hall (currently the oldest fire hall in the system - built in 1959), the relocation of the Fire & Rescue headquarters (currently located at the Strathcona fire hall) and the relocation of the City's 311 offices (currently located near City Hall). The cost estimate of the civic component of the project, including relocating Vancouver Fire & Rescue Services (VFRS) headquarters; relocating 311 offices and expanding City of Vancouver security office from City Hall, is approximately \$43M. This budget request is to fund the planning and design phases of this project to facilitate staff to initiate the procurement process.	0	7,500,000	7,500,000	2019-2022 Capital Plan (Civic Facilities/Fire & Rescue) Debenture

Addition to 2019-2022 Capital Plan	01. Affordable Housing	E. Supportive Housing	New	Permanent Modular Housing - Site Preparation Costs	Increase to Multi-year Project Budget and 2019-2022 Capital Plan: This budget adjustment is to activate multi-year project budget for Permanent Modular Supportive Housing Initiative approved by Council in May. The City will partner with BC Housing and Canada Mortgage and Housing Corporation (CMHC) to deliver this initiative. The City have identified four sites that may have sufficient capacity to accommodate the initiative of 300-400 units of supportive Housing. The cost estimate for Vancouver Affordable Housing Agency (VAHA) to prepare the land for development is approximately \$1.5M, expected to be fully recoverable by partners. A CMHC seed funding of \$550K has been awarded to put toward the pre-development costs. The remaining need for the preliminary funding will be committed by the City upfront, expected to be recovered from BC Housing and CMHC as the developments progress.	0	1,500,000	1,500,000	<ul style="list-style-type: none"> • CMHC \$550,000 • DCL \$950,000 	1,500,000

Allocation from 2019-2022 Capital Plan	04. Community Facilities	B. Recreation facilities	CPF-00047	West End Community Centre Renewal - Master Plan	Increase to Multi-Year Project Budget (funded from 2019-2022 Capital Plan): Renewal of West End Community Centre is recalibrated through Capital Plan Mid-term update to only proceed with planning phase in the 2019-22 Capital Plan. A preferred vendor for planning consultancy was selected through procurement process with an estimate of \$1.7 million. In late June of this year, the available budget for this project was \$1 million and it was decided that the consultancy would proceed as phase 1 based on available budget at that time. This budget adjustment is to increase the multi-year project budget of the West End Community Centre Renewal project by \$0.7 million to award the second phase of the planning consultancy contract (the total project budget upon approval of this adjustment is \$1.7 million, within recalibrated capital plan funding envelope of \$2 million.)	1,000,000	700,000	1,700,000	2019-2022 Capital Plan (Community Facilities/Recreation Facilities) CAC	
Allocation from 2019-2022 Capital Plan	08. Transportation	C. Public Space & Street Use	CCS-00111	Vancouver Art Gallery (VAG) Plaza Extension to Hornby Block 51	Increase to Multi-Year Project Budget (funded from 2019-2022 Capital Plan): This budget request is to increase the multi-year project budget of Vancouver Art Gallery Plaza (VAG) Extension to Hornby project. With the additional budget, it will fill the funding gap between actual contract price and the original project estimate. The project scope of work includes consultants construction services on alterations and replacement of a portion of the bike lane, sidewalk and passenger drop-off (all within the street right of way) to meet revised grades from the VAG entrance. The new layout and paving will improve the flow of vehicular and pedestrian traffic. The revised grading, together with the relocation of a catch basin will improve drainage in the bike lane and passenger drop-off. In addition this work will improve the building accessibility without ramps and associated handrails, etc.	1,830,000	226,000	2,056,000	2019-2022 Capital Plan (Transportation/Public Space) DCL	
Allocation from 2019-2022 Capital Plan	07. Civic Facilities and Equip	C. All City Facilities	NCS-00134	2019 Facilities Condition Assessment	Increase to Multi-Year Project Budget (funded from 2019-2022 Capital Plan): Increase to multi-year project budget for continued building condition assessments and management service of the software. Building condition assessments facilitate detailed assessments of building conditions that help prioritize what work needs to be done, on which buildings, and to plan & prioritize work for future years.	500,000	100,000	600,000	2019-2022 Capital Plan (Civic Facilities/All City Facilities) Capital From Revenue

No Impact (Change to project funding sources only)	#N/A	#N/A	CNS-00046	David Lloyd George School Childcare (2015-2018 Capital Plan)	Change in Funding Source for Multi-Year Project Budget - Childcare MOU: In July 2019, the City entered a memorandum of understanding ("MOU") with the Provincial Ministry of Child and Family Development (MCFD). The MOU outlines a financial contribution of \$33 million from the Province to the City, with the goal of delivering or securing up to 1,300 new public or non-profit group childcare spaces, expanding on the City's commitment of 1,000 spaces as outlined in the 2019-2022 Capital Plan. In July 2020, Council approved the allocation and project delivery plan for the first instalment (\$1.1 million) of the Provincial Childcare Contribution based on the following principles: The allocation of the Provincial Childcare Contribution to each childcare project will equal approximately 30% of the total project cost, up to \$3.0 million. David Lloyd George School is a City and Vancouver School Board childcare partnership project that is included in the Council approved project delivery plan. The expected outcome of this project is 69 0-4 year old childcare spaces. The project estimate of David Lloyd George School Childcare is approximately \$9.3 million, out of which \$0.8 million is currently funded with provincial childcare contribution. This budget adjustment is to replace \$2.2 million developer contributions (CAC) of the project budget with provincial childcare contribution. With this funding swap, the project budget of David Lloyd School will be funded by \$9.3 million developer contributions (CAC) and \$3.0 million Provincial Childcare Contribution and the percentage of Provincial Contribution will be approximately 32%.	9,300,000	0	9,300,000	Increase: Provincial Childcare Contribution \$2,200,000 Decrease: CAC \$2,200,000	
No Impact (Change to project funding sources only)	02. Childcare	B. Infant, Toddler & Preschool (0-4 Yrs)	CNS-00055	Henry Hudson School Childcare	Change in Funding Source for Multi-Year Capital Project - Childcare MOU: Henry Hudson School is a City and Vancouver School Board childcare partnership project with expected outcome of 69 0-4 years old childcare spaces and 30 5-12 years old childcare spaces. This partnership project is included in the project delivery plan (which is comprised of a list of the proposed projects associated with the first instalment of the Provincial Childcare Contribution) approved by Council. The project estimate is approximately \$12.7 million, currently fully funded with developer contributions. This budget adjustment is to replace \$3.0 million developer contributions (CAC) of the project budget with provincial childcare contribution. With this funding swap, the capital budget of this project will be funded by \$9.7 million developer contributions (CAC) and \$3.0 million Provincial Childcare Contribution and the percentage of Provincial Contribution will be approximately 24%.	12,700,000	0	12,700,000	Increase: Provincial Childcare Contribution \$3,000,000 Decrease: CAC \$3,000,000

No Impact (Change to project funding sources only)	02. Childcare	B. Infant, Toddler & Preschool (0-4 Yrs)	CNS-00071	West FraserLands Childcare	Change in Funding Source for Multi-Year Project Budget - Childcare MOU: West Fraserlands Childcare is a city-led childcare project with expected outcome of 69 0-4 year old childcare spaces. This childcare project is included in the project delivery plan (which is comprised of a list of the proposed projects associated with the first instalment of the Provincial Childcare Contribution) approved by Council. The project estimate is approximately \$10.3 million, out of which \$2.5 million planning & design phases of the project funded by Provincial Childcare Contribution has been approved by Council as part of the 2020 Capital Budget. This budget adjustment is to replace \$1.75 million Provincial Childcare Contribution of the project budget with developer contributions (DCL) to align with the implementation principle to demonstrate City's funding commitment to support this childcare project. With this proposed funding swap, this childcare project will be funded by \$1.75 million developer contributions (DCL) and \$0.75 million Provincial Childcare Contribution and the percentage of Provincial Contribution will be approximately 30%.	2,500,000	0	2,500,000	Increase: DCL \$1,750,000 Decrease: Provincial Childcare Contribution \$1,750,000

Appendix 4 - Q3 2020 Capital Closeouts with surpluses or deficits exceeding \$200,000				
Project/Program Name	Budget	Actual	Surplus (Deficit)	Closeout Variance Explanation
Arbutus Greenway - Fraser River Extensaion	3,000,000	67,275	2,932,725	This project has been deferred pending the outcome of ongoing engagement with the Indigenous community. Funding and prioritization for this project will be revisited upon conclusion of this engagement process.
Capital Grant - Little Mountain Redevelopment	3,145,344	632,022	2,513,322	This project budget was approved by Council in 2005 for financing for the re-development of Little Mountain Neighbourhood House. Back in June, 2020, Council approved to put this project oh hold pending negotaition with BC Housing on integration of land into the Little Mountain Neighbourhood House Redevelopment project as an amenity contribution. Now the project is re-activated and is scheduled to start contruction in 2021. The old project will be closed out and funding will be rolled over to the new project created for Little Mountain Neighbourhood House.
Arbutus Greenway - Master Plan/Project Office	6,000,000	5,543,251	456,749	The budget was based on high-level estimates. As the project was implemented, the cost estimates were refined and the overall costs came in lower than originally anticipated.
Utilities Strategy - Oakridge Municipal Town Centre	500,000	248,206	251,794	This project budget was orginally set up for a consultant to develop, assess, recommend and implement a strategy for better managing storm water, sewer, and water utilities for a proposed new Oakridge Municipla Town Centre. The study was completed at a lower cost than initial estimate and without the need of contingency.
Total	12,645,344	6,490,754	6,154,590
