12/02/2020	17:15	PH1 - 7. CD-1 Rezoning: 349 East 6th Avenue	Support	Dear Mayor & Council, I am writing to register my strong support for the proposed building at 349 East 6th Avenue. I live a couple of blocks away from the site, and this building is exactly what our neighbourhood needs. In the midst of a housing crisis, Vancouver needs housing of every variety in every neighbourhood. The fact the proposed building would add 82 secured below market rental homes is a huge plus. Our City has a shortage of both rental and affordable homes. This project would provide the opportunity for 82 households to live in this great City & neighbourhood. The building is in-line with the existing mid-rise form of the neighbourhood, and would fit in with the three to nine storey apartment buildings that are already in this neighbourhood. I would support a larger, taller building at this project as the site is ideally located within walking distance to two future skytrain stations. Finally, I would like to note that I support this proposal because it would add another apartment building to a part of a neighbourhood that isn't on a busy arterial road. This pocket of Mount Pleasant has a number of apartment buildings like this, and I am fortunate to live in one. These apartments add a nice character to these City blocks. Personally, I appreciate that my apartment is quieter than it would be if it was located on an arterial road.
