Employment Lands and Economy Review Quick Start Actions: Initial Zoning and Development By-law Amendments to Support Neighbourhood Grocery Stores	Support	I support any initiative that supports the proliferation of neighbour grocery stores. Linger through the neighbourhoods of any world class city (think Montreal, Paris, London, Tokyo)to understand the importance of these shops. They often come to define the neighbourhoods, by creating a sense of community, a sense of comraderie of shared space that is difficult to achieve in larger (often corporate) grocery stores. They create an active hub. They are generative and creative spaces. They offer an option for those with mobility issues. These shops offer an option for those who wish to support small, local businesses, rather than large, corporate enterprises. I genuinely cannot imagine any opposition to these stores and what they may offer our local communities. I offer my full support on these initiatives going forward. We live close to Marche St. George and it is such a great little community hub. More of this type of business is strongly encouraged. Thanks.	Jimmy Allen			Riley Park	No web attachments.

Employment Lands and Economy Review Quick Start Actions: Initial Zoning and Development By-law Amendments to Support Neighbourhood Grocery Stores	Support	Having a neighbourhood grocery store/coffee shop brings such vibrancy and heart to our neighbourhood. I love being able to send my kids down the block to pick something up, or meet a neighbour for coffee. Our local shop (Mighty Oak) increases our enjoyment of our neighborhood so much, and allows for those casual connections that help us build a stronger community. Every neighbourhood should have one. It will make Vancouver a friendlier place	Marnie Watson			Mount Pleasant	No web attachments.

Employment Lands and Economy Review Quick Start Actions: Initial Zoning and Development By-law Amendments to Support Neighbourhood Grocery Stores	Support	I would like to voice my strong support for poicy direction. The few small-scale grocers that exist now as beneficiaries of grandfathered rules are some of the most beloved neighbourhood amenities in the city. Le Marche St-George, the Wilder Snail, etc. I'm hoping the city has learned enough by working with these businesses to understand what makes them successful and how zoning can change to allow these sma l businesses to flourish in more communities. Only allowing them at select historical locations seems inequitable, and like a real missed opportunity to enhance the vibrancy and livability in our city. Employment Lands and Economy Review Quick Start Actions: Initial Zoning and Development By-law Amendments to Support Neighbourhood Grocery Stores	Support	As a resident of the Grandview Woodlands neighbourhood, I strongly support permitting neighbourhood grocery stores. The Union Food Market and St Georges Marche are good examples of neighbourhood hubs, places people can walk to, see their neighbours and pick up necessities. Employment Lands and Economy Review Quick Start Actions: Initial Zoning and Development By-law Amendments to Support Neighbourhood Grocery Stores	Support	The proposed changes are fantastic. These types of stores provide a really great sense of community. We need to support our small businesses now more than ever. We would love to have one on our block, or even right next door.
