03/08/2021	13:05	PH1 - 4. CD-1 Rezoning: 5910-5998 Cambie Street	Other	The City of Vancouver has made climate change and the reduction of carbon emissions an important priority. Under the city's Green Buildings Plan for Rezoning every rezoning is to provide an estimate through a Life Cycle Analysis (LCA) of embodied carbon emissions that result from the construction of the proposed building. This number should be an important part of any evaluation of a rezoning. By requiring it to be part of the Referral Report, it will also encourage construction methods that reduce emissions. Please request this information before making a decision on this rezoning.	Jan Pierce		§ 22(1) Personal and Confidential [Redacted]	Kitsilano	No web attachments.
