03/11/2021	21:24	PH2 - 3. Amendment to Downtown Official	Support	Density is critical to making Vancouver a livable city, and mass timber is the perfect way to achieve this. It is completely aligned to the Brand Value of Vancouver, and would keep our city in the forefront of leading by example through technology enhancements and reduced carbon footprint. 03/12/2021	09:59	PH2 - 3. Amendment to Downtown Official Development Plan – Area K3 (Granville Street)	Support	I was homeless and my road to finding housing has been a very long one. I have been inn transitional housing, and shelters and through alot of persevierence I finanlly got housing in the K3 area. Please develop more subsidized housing, housing is a right and if this amendment supports housing I know people who would be directly impacted in a positive life changing way. I think people who have lived in stable housing don't realize that homelessness and are not directly related they are cause an effect. I read through the comments of my fellow Vancouverites and was so dissapointed but not at surprised by the attituted towards change and NEED FOR SOCIAL HOUSING THAT HASN'T OCCURED SINCE 1970. I would love to attend this hearing today and voice my opinions but this is the best I can do, I hope my voice is heard and I support this and I hope this isn't just a cover for more condos that would break my heart. 03/20/2021	14:04	PH2 - 3. Amendment to Downtown Official Development Plan – Area K3 (Granville Street)	Support	HEre are some important points: Climate change is not going to be solved by reducing zoning options to very few uses. It is providing options that encourage innovation through increased density where it matters. Rental housing is critical to affordability in Vancouver, and enabling diversity in housing options will provide a different socio-economic mix Since commercial at grade is required within all buildings under current policy, high quality mixed use buildings whether residential or not, promote diversity and vibrance on the street during the day and night Expedited secured rental housing is important. Delaying the planning efforts to a larger policy change will require many more years of public consultation. We need revitalization in the area to start now due to COVID to encourage economic stability for Granville street shops and restaurants. By enabling this amendment, fast tracked projects that are mixed-use can enable quicker change. More rental housing is needed in Vancouver' housing combined with higher sustainability goals is a positive achievement and should be supported. Where will young people live if we don't build more sustainable rental housing.	Nancy Hay			Unknown	No web attachments.
