

COUNCIL MEMBERS' MOTION

UB-4. Safe Passing Distance for All Road Users (Previously Motion B.5)

At the Council meeting on June 8, 2021, due to time constraints, Council did not consider the motion below. This motion has been placed on the Council agenda of June 22, 2021, as Unfinished Business.

Submitted by: Councillors Fry and Boyle

WHEREAS

- A. The Province of British Columbia prioritizes safety measures for vulnerable road users including pedestrians and cyclists, and the Motor Vehicle Act of British Columbia mandates that cyclists must ride on the right hand side of the road, and not on sidewalks unless expressly permitted by local by-law. Faster motor vehicles sharing roads with inherently slower cyclists often result in close passes, accounting for almost one third of the threatening encounters experienced by people on bicycle and almost fifty per cent of incidents in rural areas. Because relatively few roads in B.C. have bike lanes or shoulders, and many do not even have sidewalks, directing cyclists and pedestrians to share the road with high speed motor vehicle traffic poses a potentially fatal risk and a resulting disincentive for active transportation.
- B. Jurisdictions across North America, including the provinces of Quebec, Ontario, Nova Scotia, New Brunswick, and Newfoundland and Labrador have all enacted "safe passing distance" legislation designed to protect vulnerable road users by educating and requiring motor vehicle operators to maintain a minimum safe distance when passing more vulnerable road users. Establishing a clear and reasonable distance for safe passing has created a better understanding and expectation around safely sharing roads, in particular in areas that do not have dedicated or separated cycling infrastructure.

THEREFORE BE IT RESOLVED

THAT the following resolution be submitted as a 2021 UBCM Resolution, and titled: "Safe Passing Distance for All Road Users"

THAT the UBCM request the Province of British Columbia amends the Motor Vehicle Act to better support safe active transportation and require drivers to pass people cycling and walking by 1-1.5 m based on facility type and posted speed limits, and clarify the obligation of all motorists to establish reasonable distance when passing a cyclist or a pedestrian, as well as definitive guidance on an appropriate minimum distance when doing so.
