06/22/2021	10:18	PH1 - 5. CD-1 Rezoning: 1190 Burrard Street	Other	PARKING 14 parking spaces is insufficient for a building with 139 rental units. The West End is well known for having a shortage of parking, and the situation will only continue to get worse if new buildings of this size are allowed to be built without sufficient parking. It is already incredibly challenging to find parking in the blocks surrounding this building. Please make increased parking a requirement for moving forward with this proposal. LIGHT PANELS It isn't clear from the rendering if the coloured glass is partially made of light panels. If not, fantastic! If so, given the problems the neighborhood has already had with light panels at Safeway, can we please eliminate this needless light pollution? Thank-you!
