07/11/2021	23:48	PH2 - 2. CD-1 Rezoning: 546 West 13th Avenue	Other	Hi, I would like to know how this development is going to affect street parking (as I, as well as others in the building across use street parking). There are already limited spots available in the area, and I have noticed that many of the new developments in the city, especially along Cambie south of 12th were not built to include underground parking. This lack of underground parking, then puts a burden onto other residents of the city, who are not receiving anything in return for the inconvenience. I also want to raise a concern / question about construction as many of us are now working from our apartments due to Covid. How are early morning construction hours and associated noise going to impact the quality of life of the residents along 13th, and again...what do any of the other residents get in return for all the noise and disruption, other than less trees and more loss of view Thanks.
