10/04/2021	13:58	PH 3 - 1.	n Oppose	The increased size and density of this proposed development change will eliminate all of the natural light I have during the day (my apt across the street faces south) making my apt dark and gloomy throughout the day and ruining what little enjoyment I have left. We have already had to endure nothing but construction and large buildings being erected over the past 8 years—enough is enough!!!	Jeff Capling		s.22(1)	Mount Pleasant	No web attachments.
