10/14/2021	16:44	PH3 - 3. CD-1 Rezoning: 4575 Granville Street	Support	Hi there, just a short note to express strong support for this proposal. No other area of the city has been more derelict in it's responsibility to house Canadians where they wish to live, than Shaughnessy. No other area of the city has done more to expel people already living there, than Shaughnessy. From the beginning of it's history with minimum build costs (as documented here: <a href="https://vancouver.ca/news-calendar/shaughnessy.aspx">https://vancouver.ca/news-calendar/shaughnessy.aspx</a> ), to the post war purge of rooming houses, to the implementation of heritage restrictions that use public government to create private exclusivity. While almost all "modern" land use regulations in Vancouver serve to implement class segregation, no area has been granted more of this state sponsored exclusivity, than Shaughnessy. The result of this is not, and never was felt "in" Shaughnessy, the result is felt outside of Shaughnessy, with increased pressure on rents, waiting lists, and prices, pushing people to leave, double up, or worse. On a city & regional level, the proposed building's effects will be small. But for the 24 households that will be able to live there, the effect will be large. But the largest effect will be felt outside of Shaughnessy, but the 24 other tenant households in Vancouver who won't be evicted to make room for the 24 households who will live here instead. For the sake of all Vancouverites who are tired of being told to squeeze in or leave, I urge you to approve this proposal and work to tear down the walls around Shaughnessy and all exclusive neighbourhoods in the region. Thank you	Stuart Smith	s. 22(1) Personal and Confidential	Unknown	No web attachments.
10/14/2021	17:54	PH 3 - 3. CD-1 Rezoning: 4575 Granville Street	Support	Hello Mr. Mayor and Councillors, How often do you get to see projects like the one at 4575 Granville Street' The project team has clearly demonstrated a strong willingness to meet community needs, as evidenced by their 3.5 year consultation process. This proposal has become better than I ever expected. They've reduced the building height, the density, and updated the building materials so that it better fits in with the surrounding neighbourhood. Honestly, how much more are we going to ask of somebody who is just trying to deliver on your priorities' I think we need to get shovels in the ground and say yes to building more housing in all areas of Vancouver!	Natasha Khan		Shaughnessy	No web attachments.
10/14/2021	19:34	PH3 - 3. CD-1 Rezoning: 4575 Granville Street	Support	Hello, No area of Vancouver should be losing people, and no area should exclude all but the most affluent ... this area of the city does both, and forces the rest of the city to accommodate those who can't afford a mansion on a hilltop. This proposal is for just 24 houses, it won't be the end of the world, but it creates 23 more worlds than would be on this site otherwise. Please accept my support for this project, and I hope you will side with those 23, not enforce the exclusion of all but one. Regards -Ian	Ian W Robertson		Fairview	No web attachments.
