How is it this listing is promoting development options under the Secured Rental Plan when this plan is still undergoing public hearing? Has a decision on this already been made without the public knowing? Please see this listing that assumes the SRP is a done deal!

3. Comments:*

Dear Council, The city of Vancouver needs to be able to stay as a healthy liveable city with neighbours who can know each other and appreciation for history. Considering other processes I have participated in that integrated new development more carefully into neighbourhoods, this one is reckless. There is not enough respect for the people who live in the neighbourhoods who need some consistency of character and places where they can walk around and interact with neighbours. I have found that Cambie and Marine in particular is a very lonely place because it developed too quickly. It is sad to see this. What about the habitat for birds and what about trees? Development needs to happen more gradually. I oppose this plan.
