11/30/2021	18:20	PH1 - 2. CD-1 Rezoning: 534-550 Cambie Street	Oppose	<p>The establishment of a new building at this location will severely impact the day to day lives of all residents at [REDACTED]. The lack of natural light has been proven to have negative health affects, specifically increasing cortisol levels and decreasing melatonin levels. Secondly, I and all the residents love the skyline view of the north of downtown. We are able to sit outside with a cup of coffee in the morning to appreciate the misty fog and with a glass of wine at night to gaze at the tower. If a building was to be erected behind us, we won't be able to do these small things in our lives that make a huge difference. Finally, I sincerely encourage you, as decision makers of our future, to please reconsider this project. If you were to place yourselves in our situation, I am confident that you would feel the same way. Thank you very much for your consideration.</p>	Ka Yan Lee		[REDACTED] s.22 (1) Personal and Co	Unknown	Appendix A
