CD-1 Rezoning: 534-550 Cambie Street	Other	<p>While I support higher density utilization of that block, a large office/retail development without including housing seems like a horrible idea. More office space without more housing means more traffic, higher rent in the local area. This building should be at least 50% housing and obviously a non trivial portion should be specifically affordable and/or low income housing to be part of our neighborhood. Gastown and the area around it needs housing much more than more office space. My employer with offices on Water St. will not be returning to office work, the company will from here out be work from home. An all office/retail, no housing development in this space seems very out of tune with the area and the times.</p>	Dylan Robinson	s.22(1) Personal and Confidential	Downtown	No web attachments.
