11/28/2021	15:37	PH1 - 3. CD-1 Rezoning: 8804 Osler Street	Oppose	Look at your own community plan. On the OTHER (West) side of the adjacent park you have a tall redevelopment that shadow studies show will impact the PLAYGROUD side of this park. Now you are proposing an 81 foot high 6 story structure next the landscaped east side of Ebisu park. What will grow with insufficient light' ts an apartment young family zone and who wants to be in, and what will grow in, a light-deprived green space now bracketed on west and east by structures more than twice as tall as what's existing' t's the height of stupidity and diminishes the park as some shady well between buildings, bracketed from sun on both sides by council stupidity, if approved at that height. 3-4 stories is all the park can take.
