The setback appears to have increased since I last took a look. previously it was in line with the other 2 buildings but now that's not the case so that's now a big plus for the 3304 Kingsway rezoning. I'd still like to see more plants along the street and on the roof if possible.	John Lam	s.22(1) Personal and Confidential	Killarney	No web attachments.
01/05/2022	11:18	PH 1 - 2. CD-1 Rezoning: 3304 Kingsway	Other	I support building housing- but the size of these homes is absurd. People need to be able to LIVE AND BREATHE in their own home. No one wants to raise a family in 530 sq ft. That's barely enough room for ONE person. We deserve dignity as renters and that includes SPACE. The prices for these units is outrageous and disgusting.
