[Submit comments to Council](#)

TO: Vancouver City Council

FROM: Deputy City Manager and the General Manager, Vancouver Board of Parks and Recreation

SUBJECT: Inventory of Parks, their Status under the *Vancouver Charter* and Recommended Permanent Public Park Designations

RECOMMENDATION

- A. THAT Council receive for information the inventory of parks with validated records of designation pursuant to section 488(2) and (5) of the *Vancouver Charter* (attached as Appendix A).
- B. THAT Council designate, pursuant to section 488(5)(a) of the *Vancouver Charter*, the following additional seven parks (see Appendix B for maps and parcel identifiers) as permanent public parks:
1. Alice Townley Park – 1775 Woodland Drive
 2. Gaston Park – 3470 Crowley Drive
 3. Major Matthews Park – 2627 Manitoba Street
 4. McGill Park – 2305 McGill Street
 5. Park site on Trinity Street – 2303 Wall St
 6. W.C. Shelly Park – 1500 E 8th Avenue
 7. Willow Park – 802 W 7th Avenue
- C. THAT Council determine that any existing parks, or land used as parks and which are actively maintained and cared for by the Board of Parks and Recreation, but which have not been granted status pursuant to section 488(2), (3) or (5) of the *Vancouver Charter* and are not governed under another agreement between the City and the Board of Parks and Recreation, shall be

determined to be under the custody, care and management of the Board of Parks and Recreation for park related purposes in accordance with section 488(3) of the *Vancouver Charter*.

REPORT SUMMARY

This report provides an update on an ongoing project to inventory and review the legal and operational status of all park land in Vancouver and to clarify the status of these areas according to the designations outlined in the *Vancouver Charter* (the “*Charter*”): (1) permanent public parks, (2) temporary public parks, and (3) custody, care and management areas. Clarifying the status of park land is important as it has implications for (a) the ability of the City to change the use of the land from park and (b) the Board of Parks and Recreation’s jurisdiction and authority to enter into leases and licences for the land; to make physical improvements; and to manage, control and facilitate recreational and commercial activities, including by by-laws enacted by the Board of Parks and Recreation.

In this report, staff recommend that Council receive the validated list of designated public parks to establish an official record and baseline moving forward, and declare by resolution that the first batch of seven parks identified through the comprehensive review process be designated as permanent public parks pursuant to section 488(5)(a) of the *Charter*.

Staff will continue to review the remaining parks lacking evidence of designation and will bring forward further recommendations to Council for park designation as work progresses. In the meantime, staff recommend that Council confirm that any parks without verified designation status are under the custody, care and management of the Board of Parks and Recreation to align current operational practices with the *Charter* park classifications.

COUNCIL & BOARD OF PARKS AND RECREATION AUTHORITY

As outlined in Section 488 of the [Vancouver Charter](#) the Board of Parks and Recreation has exclusive possession of, and exclusive jurisdiction and control of all areas designated as permanent or temporary public parks in the city. (Please see end of Appendix C for current *Charter* language under s. 488).

Land can be designated as a permanent public park by:

- (a) a declaration as such by a resolution or by-law of Council;
- (b) statutory appropriation of specific real property for park purposes;
- (c) dedication by either a person or by the City by deposit of a subdivision plan in the Vancouver Land Registry Office;
- (d) gift to the City for permanent public park purposes;
- (e) covenant in a document transferring real property to the City indicating that the transferred lands are to be used for park purposes together with acceptance of same by the City;
- (f) purchases made with funds borrowed with the assent of the electors under Part V for the acquisition of permanent public parks.

Permanent park designation established by (a) or (f) above, may only be revoked by resolutions from both City Council and the Board of Parks and Recreation that are passed by an affirmative vote of not less than 2/3 of all members. Note that a lease is not a document transferring real property for the purposes of subsection 488(e).

Land can only be designated as temporary public park by a resolution of Council pursuant to section 488(2) of the *Charter*. Temporary public parks can be designated as such by resolution of Council, with a 2/3 affirmative vote by all members of Council required to revoke that status.

The *Charter* also contemplates the Board of Parks and Recreation having “custody, care and management” of other areas belonging to or held by the City, to the extent prescribed by Council.

Previous Council Decisions

On June 1, 1976, Council approved the recommendations outlined in the final report of the [Joint Board of Parks and Recreation Responsibility Study](#), which clarified several operational and administrative functions, and included several proposed amendments to the *Charter* to clarify the Board’s authority with respect to public parks, and the designation of those parks. The current language in Section 488 of the *Charter* reflects those proposed amendments. Prior to implementation of those amendments, the *Charter* did not include language that contemplated a formal designation process for parks.

With respect to Recommendation A, records of previous Council decisions on park designations are referenced in the Park Status Inventory (see Appendix A).

CITY MANAGER'S/GENERAL MANAGER'S COMMENTS

The City Manager recommends approval of the foregoing.

REPORT

Background/Context

In July 2018, the City Manager and the General Manager of Parks and Recreation sent a memo to Council and Board of Parks and Recreation introducing the [Board of Parks and Recreation Jurisdiction – Joint CoV/PB Review Project](#). This project was initiated to ensure Vancouver parks and greenspaces remain protected, that matters that fall under the Board of Parks and Recreation governance and jurisdiction are clarified, and that processes to improve operational relationships are identified.

As noted in the July 2018 memo, there have been some recent situations where uncertainty around the official status of a park, as defined by the *Charter*, had contributed to confusion around legal authority and operational jurisdiction. Following initial scoping interviews with elected officials and staff, the following work was prioritized for the first phase: completing the park inventory; clarifying the status of all existing park sites; resuming the practice of regularly bringing park designation recommendations to Council; and clarifying internal processes to ensure that new parks are designated when first acquired or established.

Public Park Acquisition

Park space in the city has expanded along with the city's population. This expansion has happened in a number of ways:

- Direct purchase of property (eg. China Creek South and Memorial South Parks);
- Transfer from private landowners as a public benefit and condition of rezoning for large sites (eg. parks in East Fraserlands);
- Changing use of City-owned land to park (eg. street and lane closures);
- Leasing from senior government and agencies (eg. Stanley Park); and
- Donation of land for park purposes (eg. Jericho Park).

As the amount of park land has increased, the process of documenting park status has been inconsistent, with the designated park status often not considered, explicitly stated or contemplated by section 488 of the *Charter*. Additionally, the original intent for the land when it was acquired might not match its current use today.

The designated status of a park is important to ensure the efficient provision of park and recreation services, and the broader consideration of current and future city-wide needs. Park status clarifies the decision-making authority for the lands between City Council and the Board of Parks and Recreation, and designation of land as permanent public park offers significant protection for the long-term park use of those designated lands.

Vancouver *Charter* Context

Current Wording

Under the current language of the *Charter*, lands are determined as “park” three different ways:

- 1) Designated permanent public park;
- 2) Designated temporary public park; and
- 3) Under the custody, care and management of the Board of Parks and Recreation to the extent prescribed by Council.

In all cases, the fee-simple *ownership* of the park lands remains with the City in accordance with Section 289(1) of the *Charter*. (Please see Appendix C for *Charter* wording)

The *Charter* establishes the concept of “permanent public parks” and “temporary public parks” and sets out the specific ways in which the lands can be designated. These concepts do not exist in law generally, so the precise language in the *Charter* is the only authority to determine whether lands are considered a “permanent public park” or a “temporary public park”.

1. Permanent Public Park:

- Section 488(5) of the *Charter* provides for lands being designated as *permanent public park*, which can occur under the six different routes identified under the heading “Council & Board of Parks and Recreation Authority” above.
- The most common way to date in which lands have been designated as permanent public park is pursuant to 488(5)(a), a resolution by Council.
- Once land is designated as a permanent public park, the Board of Parks and Recreation has exclusive possession of, and exclusive jurisdiction and control over the park, unless the status is revoked in accordance with the *Vancouver Charter*.
- The status of permanent public park also requires that City Council and the Board of Parks and Recreation consent on a 2/3 majority to any change in that status, thus offering significant protection for the park use of that land.

2. Temporary Public Park:

- Section 488(2) of the *Charter* states that lands can be designated as *temporary public park* by “resolution of Council.”
- Once a park is designated a temporary public park, the Board of Parks and Recreation has exclusive possession of, and exclusive jurisdiction and control over the park, unless the status is revoked in accordance with the *Charter*.
- Temporary park status may be revoked by a 2/3 majority of Council only; the *Charter* does not require a resolution of the Board of Parks and Recreation.

3. Custody, Care and Management:

- Section 488(3) of the *Charter* allows Council to declare certain lands to be in the “*custody, care and management*” of the Board of Parks and Recreation to the extent prescribed by Council from time to time.
- This section allows Council to specify that certain lands are to be managed and cared for by the Board of Parks and Recreation, but does not place any restrictions on changing the future use of those lands from park use.
- To our knowledge, Council has rarely in the past made this declaration pursuant to the above-referenced section of the *Charter*.

For land to be designated a temporary or permanent public park, the process set out in the *Charter* must be followed. The intent of the parties can be influential when determining if land should be designated as park or not, but is not sufficient to bestow status. For example, lands are sometimes acquired through a rezoning process for the purposes of park and transferred to the City; however, the intent declared in a rezoning report is not sufficient to designate a park as a “permanent public park.”

For the land to be designated as permanent park, the process under the *Charter* must be followed; for example, land could be dedicated as permanent public park by a subdivision plan noting the land as park, or Council can pass a bylaw or resolution that dedicates the land as permanent public park.

Historic Wording and Custody, Care and Management

The current wording of the *Charter* has been in effect since 1978, with some minor modifications made in 1988, 1993 and 1994. For a history of Section 488 of the *Charter*, please see Appendix C. Notably, prior to express parks provisions in the *Vancouver Charter*, in 1888 City Council passed By-law No. 68 that created a Parks Committee and stated that such Committee shall have care and custody of the public park lands. Prior to the language established in 1978, the *Charter*, from 1953-1978, stated that the Board of Parks and Recreation shall have the *custody, care, and management of the public parks of the city, and of such other areas belonging to or held by the city as the Council may from time to time determine*. This language did not bestow any particular status on park land (the concepts of permanent and temporary parks did not exist at that time), but did give authority for the day-to-day management of park lands to the Board of Parks and Recreation. Section 489 of the 1953 *Charter* also included a detailed list of what the “custody, care and management” of park lands entailed. The 1953 *Charter* included a separate and specific section allowing Council to delegate the power to the Board of Parks and Recreation *to lease or licence land for terms not exceeding 5 years*. Accordingly, the *Charter* language prior to 1978 did not grant the Board of Parks and Recreation any powers to lease, licence or otherwise grant occupancy of park land, including through legal instruments or rights of way, to any person unless specifically authorized to do so by a separate resolution of the City Council.

This historical language demonstrates the consistent intent of Council that public parks within the City be regarded as under the custody, care and management of the Board of Parks and Recreation, but that the power of the Board of Parks and Recreation to lease or licence must be specifically granted. Accordingly, for parks under the custody, care and management of the Board of Parks and Recreation, the power to lease, licence or grant interests in land remains with the City, unless that power is expressly granted to the Board of Parks and Recreation for a specific park.

Current Operational Status and Custody, Care and Management

Under current operations, Board of Parks and Recreation directs the park related day-to-day management, maintenance and operations of all lands in the City considered as “park,” irrespective of the parks status under the *Charter*. The practice of the Board of Parks and Recreation and the City shows that both parties generally consider all park lands to be under the custody, care and management of the Board of Parks and Recreation for park related purposes, even if that hasn’t been prescribed by Council.

The prior *Charter* language (pre-1978) more generally allocated custody, care and management of “the public parks of the City” to the Board of Parks and Recreation, whereas the current *Charter* language requires Council to prescribe the status of lands in each instance. Over the years, the conduct of the City and Board of Parks and Recreation show that all parks that are not designated as permanent or temporary are considered to be in the custody, care and management of the Board of Parks and Recreation for day-to-day park operations. However, the current *Charter* wording does not fully align with this operational practice for any parks acquired after 1978.

For this reason, staff are recommending that Council formally confirm that all existing parks and lands used as parks that have not been officially designated as either permanent or temporary public park be considered to be under the custody, care and management of the Board of Parks and Recreation in accordance with current operating practices. This will help ensure operational practice aligns with the *Charter*.

What Each Status Means

Understanding the park status of lands is important because the *Charter* grants the Board of Parks and Recreation fairly expansive powers, but there are some key differences. Powers include providing physical improvements in the parks, managing, controlling and facilitating recreational and commercial activities within the parks, and enacting bylaws. Understanding the scope of these rights becomes increasingly important when a lease, licence or other access agreement in a park is being considered (including statutory rights of way), or if the City is considering a change in use of the lands.

- **Leasing or licensing park land.** Board of Parks and Recreation only has exclusive authority to lease or licence “park lands” when a park is designated as permanent, temporary, or if that power is specifically granted to the Board of Parks and Recreation by Council resolution; otherwise, the lease or licence agreements also need to be approved by the City as the fee-simple owner of the lands. This scenario results in some tri-partite agreements with tenants, where the City enters into the agreement as landowner and the Board of Parks and Recreation as the party responsible for the operations and management of the park.
- **Using land for a non-park use.** The status of land is very important to understand if land used as park is being considered for another use.
 - Permanent public park lands are highly protected as park lands, with both Council and Board of Parks and Recreation required to vote with a 2/3 majority to change the status of those lands.
 - Revoking the status of a temporary park does not require Board of Parks and Recreation approval, but does require a 2/3 majority of Council indicating that a change in use from park should be considered thoughtfully and in a public process.
 - Changing the use of lands under custody, care and management of the Board of Parks and Recreation does not require Board of Parks and Recreation approval or any specific process under the *Charter*, and such lands would only be considered to be under the custody, care and management of the Board of Parks and Recreation so long as they are being used as park.

A general summary of the powers granted to the Board of Parks and Recreation for parks under the three categories in the *Charter* is provided in Appendix D.

STRATEGIC ANALYSIS

Validating Which Parks Have Designated Permanent or Temporary Status

In order to confirm the legal status of all lands currently falling under the Board of Parks and Recreation’s operational jurisdiction, staff assembled one consolidated park and green space inventory which included all parks, gardens and beaches; street ends and roads used as park-

like green space (often adjacent to or through a park); park service yards; and land acquired for park purposes but not yet developed as such.

To confirm park status for each, staff reviewed Council and Board of Parks and Recreation reports and meeting minutes, development plans, correspondence, public announcements, lease agreements, financial and annual reports, donation records, and land title records. This work included locating and reviewing both electronic and hard-copy records and archives dating back to the 1960's. Legal Services then reviewed all records of designation located by staff.

The list in Appendix A includes all parks which have known records that meet the *Charter* requirements for permanent or temporary public park designation. Staff acknowledge that it is possible that records for some parks may not have been located and there may be parks added to or removed from this list if other evidence is subsequently found, including bequeathment documents or further resolutions granting or rescinding designation.

Recommending Designation for Non-Designated Parks

For the remaining parks with no clear or available documentation of permanent public park or temporary public park status, staff reviewed park histories, current uses, and any long-term community plans. Parks were categorized by complexity to identify the first, and most straightforward, batch of parks to review and consider recommending for designation by Council under the *Charter*.

The City Surveyor and staff from Engineering Services, Real Estate and Facilities Management, Planning, Urban Design and Sustainability, and Parks and Recreation then reviewed the initial batch of parks, with specific attention to the following:

- Review of existing leases, licences, reservations, encumbrances or restrictions;
- Review parcels for anticipated future utility uses, street widening etc.;
- Consider other current City uses of the land (i.e. existence of statutory right-of-ways, utilities or infrastructure); and
- Consider the City's interest in the land (is it leased or owned) and if there are any reservations, encumbrances or lease restrictions to consider.

Survey also reviewed parks to see if titles need to be consolidated, have charges removed, or if statutory right of way agreements for existing or future utilities should to be registered prior to designation being recommended.

Proposed Parks for Permanent Designation

As a result of this work, and as the first step of a multi-phase process, staff are recommending Council designate the following parks as permanent public parks:

1. Alice Townley Park – 1775 Woodland Drive
2. Gaston Park – 3470 Crowley Drive
3. Major Matthews Park – 2627 Manitoba Street
4. McGill Park – 2305 McGill Street

5. Park site on Trinity Street – 2303 Wall St
6. WC Shelly Park – 1500 E 8th Avenue
7. Willow Park – 802 W 7th Avenue

Appendix B provides the Parcel Identifier (PID), Legal Descriptions and a map for each of the above seven parks. If this recommendation is approved by Council, staff will add these additional seven parks to the list of parks in Appendix A.

Future Park Designations

The process to review parks for suitability for designation recommendation is time-intensive for concurring City departments. To facilitate this review moving forward while balancing it with other City priorities, staff will review parks for suitability and bring forward small batches for consideration by Council on an ongoing basis.

In the interim, any parks lacking clear evidence of permanent or temporary public park status will be considered to be under the custody, care and management of the Board of Parks and Recreation pursuant to section 488(3) of the *Charter*, if Recommendation C is adopted by Council.

Process for New Park Acquisition or Establishment

Through this process staff have identified that parks are increasingly acquired in ways that have not been contemplated in the *Charter* (e.g., as a Community Amenity Contribution, or funded through Development Cost Levies collected for park purposes, etc.).

To address this inconsistency, staff are clarifying department accountabilities and processes to ensure that park status is considered and documented at the time of acquisition or establishment, and to ensure any necessary recommendations for designation are brought forward for Council consideration at or near the time of acquisition.

FINANCIAL IMPLICATIONS

There are no financial implications.

LEGAL IMPLICATIONS

If adopted, Recommendation B would grant, pursuant to the *Vancouver Charter*, permanent public park status to the seven parks identified in Appendix B, thus granting greater authority to the Board of Parks and Recreation in respect of those parks. The Director, Legal Services does not have any concern with Recommendation B.

If adopted, Recommendation C would ensure all parks are clearly within the three jurisdictional park categories outlined in the *Vancouver Charter*.

Current *Charter* wording creates uncertainty around the status of newer parks that have not been designated as permanent or temporary. Recommendation C clarifies that these parks are considered to be under the custody, care and management of the Board of Parks and Recreation, and would ensure that operational practice aligns with the *Charter* wording.

Legal Services understands that subsequent phases of this project will clarify the exact roles and responsibilities of the Board of Parks and Recreation and City in respect of parks that are under custody, care and management of the Board of Parks and Recreation and Legal Services supports the undertaking of that future work.

CONCLUSION

This report reflects the significant research and analysis undertaken so far to develop and validate a comprehensive inventory of parks in the city and their status under the *Charter*. By receiving the list of parks with validated designations, designating the seven parks recommended for permanent public park status, and confirming the remaining parks under the custody, care and management of the Board of Parks and Recreation until otherwise determined, Council would be establishing an official record for all City and Board of Parks and Recreation departments to reference moving forward. Staff will continue reviewing parks without evidence of designation, and will report out to Council with future recommendations to designate parks when appropriate.

	<p>type without the permission of the Board. In granting permission, the Board may impose such terms and conditions as it deems appropriate.</p> <p>(8) Fees and charges imposed under this section may be different for different classes of persons and activities.</p>	

Date	<i>Vancouver Charter Excerpts – Fee-Simple Ownership of Parks</i>	Notes
Present (2022)	<p>Streets and parks vested in city</p> <p>289</p> <p>(1) Unless otherwise expressly provided, the real property comprised in every street, park, or public square in the city shall be absolutely vested in fee-simple in the city subject only to section 291A of this Act; provided that section 57 of the Transportation Act shall not apply to any street, park, or public square aforesaid; provided further, however, that it shall be lawful for the city to acquire from any person rights or easements for street, park, or public square purposes less than the fee-simple, whether on, above, or below the surface of any real property owned by such person.</p>	

APPENDIX D
SUMMARY OF BOARD OF PARKS AND RECREATION POWERS
FOR VARIOUS PARK DESIGNATION CATEGORIES

The following is a general summary of the powers granted to the Board of Parks and Recreation for lands designated under the three current categories in the *Charter*.

All Parks (Including Custody, Care and Management) - To be considered “park” under the *Charter*, the land must be designated as either permanent or temporary park, or prescribed to be under the custody, care and management of the Board of Parks and Recreation, all in accordance with section 488 of the *Charter*. The Board of Parks and Recreation generally has the following powers in respect of all “park”:

Day to Day Management for Park Purposes: The powers set out in section 489 of the *Charter*, except:

- The general powers in section 489 may also be restricted if the prescribed powers by Council pursuant to 488(3) dictate otherwise.
- No power to grant interests in land, lease or licence, except for designated permanent and temporary parks, or unless specifically granted by Council. Short-term licences such as film/special event/other activity permits, field rentals or room bookings are part of day-to-day operations and routinely entered into by the Board of Parks and Recreation for any category of “park” (including custody, care and management, where the Board of Parks and Recreation is acting as a representative of the City).

By-laws: The Board of Parks and Recreation may pass, amend or repeal by-laws to be observed in parks (provided they are not inconsistent with by-laws passed by City Council) for the control, regulation, protection, and governance of the parks and of any persons who may be therein (section 491(1)).

Land under the custody, care and management of the Board of Parks and Recreation is still under the jurisdiction of the City of Vancouver. Day to day management of the land as it relates to park purposes is carried out by the Board of Parks and Recreation. Day to day management of the land as it relates to non-park purposes (example utilities) remains with the City of Vancouver.

Additional Powers for Permanent Public Parks Only – If a park is designated as permanent, the *Charter* also provides the Board of Parks and Recreation with the following additional powers:

Leasing and Licensing: The Board of Parks and Recreation may, in the name of the City (“City of Vancouver, as represented by its Board of Parks and Recreation”), enter into leases, licences and other agreements with respect to the occupancy of any building or place in a permanent public park. No further authorization by City Council is necessary for the Board of Parks and Recreation to enter into such agreements with respect to permanent public parks (section 490(1)).

Use of Property: Authority to determine how such real property shall be used, what fees or rental charges shall be levied and, subject to sections 492 and 493 (*which relate to estimates and finances*), what improvements shall be made thereon, including the removal or demolition of any existing improvements (section 488(6)).

Sales and Services: The power to prohibit the selling of anything, and the provision of services or performances of any type without the permission of the Board of Parks and Recreation. In granting permission, the Board of Parks and Recreation may impose such terms and conditions as it deems appropriate (section 488(7)).

Additional Powers for Temporary Public Parks Only - If a park is designated as temporary, the *Charter* also provides the Board of Parks and Recreation with the following additional powers:

Leasing and Licensing: Council may delegate to the Board of Parks and Recreation the power to enter into agreements permitting occupancy of a building or place in a temporary public park in the name of the City, on terms (including remuneration) as the Board of Parks and Recreation determines (section 490(2)).

Use of Property: Subject to restrictions on leasing and licensing in Section 490, authority to determine how such real property shall be used, what fees or rental charges shall be levied and, subject to sections 492 and 493 (*which relate to estimates and finances*), what improvements shall be made thereon, including the removal or demolition of any existing improvements (section 488(6)).

Sales and Services: The power to prohibit the selling of anything, and the provision of services or performances of any type without the permission of the Board of Parks and Recreation. In granting permission, the Board of Parks and Recreation may impose such terms and conditions as it deems appropriate (section 488(7)).
