First, it would have an undesirable effect and diminish the level of privacy in this multicultural neighborhood. Second, it is a massive obstacle for the natural light coming to the neighborhood. Additionally, neighbors would probably close the drapes and blinds to secure their privacy and most likely suffer from the lack of sunlight in the long term. Third, this tall building in the neighborhood will diminish the value of the condos and would have a massive impact on the economy of the people who live in this area, as their condos are their most valuable properties.
