06/10/2022	15:28	PH1 - 2. CD-1 Rezoning: 4310 Slocan Street	Support	Hi - I support this rezoning as it is close to transit and seems to be a continuation of the building beside it. It will provide new housing supply and will increase the local population so that there is more of a market for local amenities. I live a few blocks away and since the TMH went in property crime has increased, so this will hopefully create more eyes on the street as well. BTW - The map on the post-card mailout is misleading as it doesn't show the skytrain (!!) or the major bike route that are adjacent to the development, so that should be fixed for these mailouts. Also the postcard description is misleading: "a 4 storey mixed-use building with a partial 5th storey" is a 5 storey building! But regardless I support it.
