06/14/2022	13:54	PH1 - 4. CD-1 Rezoning: 1406- 1410 East King Edward Avenue	Other	I live in this neighbourhood and have been following this process for some time. I am pleased to see that a quality operator has been selected. I am surprised that the building keeps growing by 2 more stories at each stage of the process. I would like to know if this place is to be considered a temporary step to other housing or if it is intended as a place where someone might live forever. I would like to see how the inhabitants of this building will be integrated into the neighbourhood if they are from other parts of the city and how we can make sure that the community has a chance to interact with these residents in a positive way. I have read the materials about supportive housing, and I do not see specifics as to what will be provided on site at this building. I would strongly encourage the operator to make sure to employ a full roster of staff who are experienced with the issues that residents may have and who are able to fully support them in their new environment. In the neighbourhood, we occasionally (and more so of late) experience petty crime such as vandalism and theft. I would like to see this development become a good partner to neighbourhood groups such as community policing and community centre groups in providing care and activities that prevent this sort of mischief from being perpetrated by its residents, but also to be a leader in the community to instill pride of place and help set the tone in the neighbourhood as one to help maintain and contribute to. Many neighbours here have heard about not so successful integrations of supportive housing into other neighbourhoods and will be resistant to the idea of this place being built. I hope that this project will lead by example and be a properly funded and managed facility that we can all embrace.	Celeste Munger			Kensington-Cedar Cottage	No web attachments.
