07/05/2022	13:32	PH1 - 4. CD-1 Rezoning: 3970-3998 Main Street	Other	<p>I am opposing not enough parking N THIS BUILDING. We already lost parking on King Ed to rush hour, and on Main St to restaurant patios. City added pay parking for the balance of Main St and residential parking on the side streets. There is no parking without the extra complex. I live at Main and King Ed & people don't think twice of parking partially across my driveway "because there is no parking or it was only for a minute". Why should I have to call for a tow truck to remove them and/or miss medical appts that I am charged for because of this. You cannot fix this additional parking issue after the fact. It must be dealt with now, even though the cost to dig down another floor or partial floor is high ... BUT THAT IS THE PRICE OF BUILDING MORE COMPLEXES IN THIS SMALL CITY. This burden is on the contractors and the buyers, renters & commercial folks if they choose to live here. Providing 30 stalls for 60 unit is not acceptable. 17 stalls for 6 commercial is not acceptable. I had to have 6 stalls for my small business, with one handicapped parking stall and I had to pay extra for the mediation to have it changed to that. Please put the accountability back on the builder ... removing parking in such a dense area is not going to improve the quality of life for anyone. Please feel free to contact me if any questions, ty Susan #. 22(1) Personal and</p>	Susan Brookes	<p>s. 22(1) Personal and Confidential</p> 	Riley Park	No web attachments.
