06/24/2022	11:34	PH2 - 5. CD-1 (313) Text Amendment: 2010 Harrison Drive	Other	<p>The German-Canadian Benevolent Society of BC has been caring for seniors at its present site on Harrison Drive in Vancouver since 1969. - The home has been accredited since 1978 through Accreditation Canada with exemplary standing. - The new, state-of-the-art care home will be built on the site of the existing home. Vancouver Coastal Health will fund the rooms with rates set by the Ministry of Health. These are much needed senior care rooms for Vancouver. - The care home takes an innovative approach to elder care, creating an environment that promotes resident participation in daily life and provides comfort for residents and their families. - The new care home will look and feel like a home while being fully equipped for the delivery of complex care. The design nurtures human interactions, autonomy, dignity, safety and a sense of community and well-being. - A key design feature is a small-house environment that is more adaptable to the needs and wishes of residents and plays a key role in improving resident well-being and reducing the risk of passing infections among the long-term care residents. I encourage Council to support this project.</p>			<p>s. 22(1) Personal and Confidential</p>	Victoria-Fraserview	No web attachments.
