CD-1 Rezoning: 625-777 Pacific Street and 1390 Granville Street (Granville Loops)	Support	Pretty much anything would be better than the current land use for the Granville St / bridge loops. The proposed plan is an excellent use of land. I also happen to like the idea of "framing" the entrance to downtown with taller buildings -- but that's a matter of personal preference and something that not everyone will agree with e.g. I happen to like one style (framing great streets), doesn't make it a good idea; because obviously others can like other things (brutalism) which doesn't make them a good idea. But I digress. Please pass this re-zoning and cleanse the downtown peninsula of the cancer that are Granville loops.	Peter Hudson		"s.22(1) Personal and Confidential"	Downtown	No web attachments.
06/29/2022	18:35	PH3 - 6. CD-1 Rezoning: 625-777 Pacific Street and 1390 Granville Street (Granville Loops)	Support	I support this project as I believe it will improve the neighbourhood by providing more housing and child care. I support the increase in height of the towers. Thank you.	Jeff Drabik	resident	"s.22(1) Personal and Confidential"	Downtown	No web attachments.
07/02/2022	12:02	PH3 - 6. CD-1 Rezoning: 625-777 Pacific Street and 1390 Granville Street (Granville Loops)	Support	I live in this neighbourhood, and support the proposed development. This development will support the removal of the Granville Loops, and thus improve safety.	Jeff Leigh		"s.22(1) Personal and Confidential"	Downtown	No web attachments.

07/04/2022	09:59	PH3 - 6. CD-1 Rezoning: 625-777 Pacific Street and 1390 Granville Street (Granville Loops)	Support	This is my walking route to work! It's the last leg, and not a very pleasant part of it due to the bridges poor design. Honestly aside from the bridge itself needing an overhaul these loops seem unnecessary and it would be a delight seeing them replaced with towers of mixed use and height. Already this area has seen a boom in development in the past 7 years and this space feels like a relic that's been left behind. I don't agree that this should be a "green space/park" or that shadows would be a concern given the already very green seawall two blocks south and new towers to the west, east and north of this development site. If anything perhaps the first few stories could become a new community centre to meet the needs of the growing downtown population! But I like this plan as it is and support it moving forward.
