2023-02-09	15:58	PH 1 - 4. CD-1 Rezoning: 6151-6261 Granville Street and 1511 West 47th Avenue	Support	I am in support of the application to build a new seniors' care residence at 6151-6261 Granville Street and 1511 West 47th Avenue. I have a grandparent who lives in an Amica residence – and I am also a resident of the west side so I wanted to offer my perspective. While it's not fun to think about aging, it's a reality that we all face. When the topic of housing comes up in Vancouver, you typically hear about the challenges we face surrounding affordability. However, you don't hear a lot about supportive housing and care for seniors. The demographic on the west side is skewed older, and as less and less people have children (often driven by affordability), this is getting worse. This means that we are going to need more housing for seniors – and we better build it soon to keep pace with demand. For these reasons, I wanted to lend my support to this project and hope it is met with support from Council.	Fraser Blanchflower	Kitsilano

I grew up nearby, on 40th and Granville, and know that the surrounding area has an aging population that will soon be in need of housing like this. I think it's great that we are providing more units for seniors, as the issues the city is dealing with applies to all ages and abilities. I hope you approve this project and more like it. The location is near to many walkable areas, and lots of green space, which will be nice for residents and staff to frequent. Thank you for your consideration.	Bailey Miazga

As somebody who lives on the west side and has aging parents, we can't ignore the benefits of building seniors housing in neighbourhoods where the current demographic is nearing the age where additional supports are needed. I have had the opportunity to tour a couple Amica facilities and can say it is a place where I would be happy (even relieved) to send my loved ones. The lack of beds for our aging seniors is staggering. Our government cannot catch up, so lets allow the private sector to help us. I hope this is ushered through, and we see more in its wake.
