There is just a lot of need to find homes for the people who want to live and work here in our city, and this proposal provides both of these opportunities. Prices will remain high as long as demand for housing is not met fast enough, that is simple economics.</p> <p>The buildings are directly on Oak Street which is appropriate for the building heights and sizes proposed. This location is appropriate for more residential use given the proximity to Oak Park and the elementary school which is a 10 min walk.</p> <p>Please support this project so more families can enjoy this community and our beautiful city.</p>	Mary Seo	Marpole
