2023-03-09	16:19	PH 2 - 4. Zoning and Development By-law Amendments to Schedule E Building Lines (Hastings Street, North Side from Cassiar Street to Boundary Road)	Oppose	<p>I have been a resident in this neighbourhood for the last 14 years. I have witnessed amount of traffic along Hasting St., Road exponentially, which has had an impact on our neighbourhood with respect to traffic volumes and overall safety.</p> <p>I am opposed to the amendment proposed to narrow the sidewalks in this area. It doesn't appear rational, particularly considering not only the heavier traffic volume that the neighbourhood has been experiencing, what is well there are a number of significant rental projects, both under construction and for future proposed development in the area that will increase overall pedestrian traffic.</p> <p>It should be the goal of the current counsel to preserve as much public space available for for local residence and to be also mindful of the significant impacts that the local community has undertaken to accommodate the growing traffic volumes attached to both Hastings arterial, and second Narrows Bridge.</p> <p>Finally, it should be noted that there is a major elementary school in the area. [John Franklin elementary school), and any proposed changes regarding public lens should be mindful of the fact that we would like to support a growing population of students in the local neighbourhood.</p> <p>Please reach out to me should you have any comments or questions about this note.</p> <p>Thank you</p>	Pedro Tavares	Hastings-Sunrise
