CD-1 Rezoning: 314-328 West Hastings Street	Support	As a home owner in the downtown / crosstown neighborhood, my family supports this project as we need more rental units to keep rental rates from rising too fast so residents are not looking to move further out away from downtown core. I believe this will also improve the community by bringing more residents and new businesses to the area by Victory Square.	David Luo	Downtown

I would like to see further densification and upgrades to heritage structure's in my area.  Applicable CACs could be used to improve Chinatown station and Keefer steps, which will be relied upon by renters given lack of parking, or to create a safe and clean corridor to gastown	Alan Hogarth	Downtown
