SUBJECT: Rezoning: 6333-6369 Yukon Street – Conditions of Approval in Appendix B

RTS #: [RTS 15859](#)

On July 25, 2023 Council referred the above-mentioned rezoning application to a Public Hearing. The application included rainwater management conditions in Appendix B. Also on July 25, 2023 Council approved amendments to the Green Buildings Policy for Rezoning and the Rezoning Policy for Sustainable Large Developments, and enacted amendments to the Zoning and Development By-law and the Building By-law that simplify rezoning application and development permit requirements. These changes streamline the review and approval process for rainwater management requirements ([RTS 15424](#)).

As a result of the changes noted above, staff will consider conditions 1.9, 1.10, 1.11 and 1.12 of the Conditions of Approval (Appendix B, Part 1) to be generally met by virtue of compliance with the downstream building permit application process. Staff will also consider the paragraph beginning with "The post-development 5-year ..." and ending with "... prior to the issuance of the Development Permit" in condition 2.3(b)(i) of the Conditions of By-law Enactment (Appendix B, Part 2) to be met by virtue of compliance with the downstream building permit application

process. This is because a substantially equivalent requirement will come into force and effect in the Building By-law on January 1, 2024.

No action is required by Council. This memorandum will form part of the September 28, 2023 Public Hearing agenda package and be available for public viewing.
