As the general population of the west side of Vancouver ages, it will be great to incorporate a transition of care and allow residents to remain nearby. Understanding these take a while to get underway and approved, I'm happy to see that this has reached the public hearing milestone.	EB Evans	[REDACTED]

We need more models of care for seniors and I appreciate that this type is generally suitable for the area and existing residents. I understand Amica typically houses folks who are existing residents of the neighbourhood, which is great!	Cole T	[REDACTED]
