2024-02-24	03:39	PH 2 - 2. CD-1 Rezoning: 6095 Fraser Street	Support	<p>I live less than ^{522(1) Perso} away, and I support this proposal. This area is in dire need of more density; there has been almost no(none?) housing developments near here in the past 25 years.</p> <p>Passing this proposal could encourage more proposals in the future.</p> <p>The lost of buy low foods during construction shouldn't be a big problem as there are lots of nearby(<300m away) shops that can fill it's role.</p> <p>The design will also help modernise the look of the area. Which has been mostly unchanged since for over 25 years, while most of the people here have changed.</p> <p>The additional homes will also bring more people to the businesses on fraser street.</p>	Caleb Tran	Sunset
