Our neighborhood will benefit greatly from more housing options, more daycare spots, and more public spaces, which this project delivers with no effect on existing rental housing. The many small and independent businesses in the area, which have dealt with a very challenging environment during the Broadway extension construction, will also enjoy the greater vibrancy and foot traffic that hundreds of new neighbors will bring.</p> <p>Even as someone who will be directly inconvenienced by reduced sunlight from the west tower's shadows, I can't think of any compelling reason against adding much-needed rentals during a housing crisis. We're fortunate enough to live in one of the best neighborhoods in the city, a privilege this project will extend to hundreds more. I hope Council approves this project and that construction begins as quickly as possible.</p>	Ben Huberman	Mount Pleasant
