2024-09-13	10:50	CD-1 Rezoning: 5630-5678 Heather Street	Support	I'm in support of this proposed development. I spent over 10 years as a renter in Vancouver and it was always hard finding a stable, good quality rental at a fair price. This is centrally located near a major transit hub and it is positive to see more purpose built rental buildings so that renters have more options. I also like that there is a 20% below market rental component.	Brennan Finley	Fairview	
2024-09-11	13:55	CD-1 Rezoning: 5630-5678 Heather Street	Support	I support Anthem's proposed project at 5630-5668 Heather Street. This neighbourhood is rapidly evolving with the impending completion of Oakridge Shopping Centre and numerous other redevelopment projects in the surrounding area. The area is well-served by public transit and is highly walkable - this is exactly where the City should be focused on adding density. Vancouver badly needs more rental housing stock and these 184 rental units will help to ease the current shortfall.	Jonathan Hallett	South Cambie
