The lack of available rental units has created significant challenges for local residents, especially for those who are seeking affordable options in a city where housing supply remains critically low. This project puts forth both market and affordable rental which is a great mix for the existing community. Thank you for your time and consideration. I strongly encourage the Council to approve this project.</p>	Jayme Colville	Downtown

With our city grappling with a housing shortage, this project is a much-needed step toward providing more housing options for our community.</p> <p>I truly appreciate the thoughtful design of the development. It not only enhances the area but also aligns beautifully with the reasons taxpayers invested in the nearby subway. By creating a residential space close to transit, we can promote sustainable living and encourage residents to embrace public transportation, ultimately reducing congestion.</p> <p>Supporting this project means investing in the future of Vancouver—one that values livability, accessibility, and community growth. I believe it’s a win-win for our residents and our city as a whole.</p> <p>My only minor criticism is that it is about ten storeys too short but in the spirit of advancing a project to deliver desperately needed housing - it should be immediately approved with permits expedited.</p>	Corey Colville	Downtown
