2024-11-12	15:50	CD-1 (845) Text Amendment: 728-796 Main Street and 205 Union Street	Support	The cost of the development and immediate need for housing is absolutely essential for Black folks and other members of the community who deserve accessible and affordable housing. The City of the Vancouver should not be looking to push out community members out for "for-profit only" development. Mixed housing in a community celebrates and highlights our diversity and enriches community experiences. Healthy public policy calls for informed and evidence based decision making. There is an abundant amount of data, local and across the country, when it comes to the immediate and dire need for housing. Additionally, it is important for our communities to address the historical and current inequities experiences by some of our most deserving community populations, especially when those historical injustices have lasting residual impacts we see today - such as Hogan's Alley. The City of Vancouver has the opportunity to be a leader in addressing those inequities for meaningful change. When you support your most equity deserving populations, all others will also feel the benefits. This is an opportunity for support increased housing for all that is affordable in our community. Thank you to City Council for leading and supporting this equity deserving population and need for a healthy thriving community.	Anna Spyker		
2024-11-12	13:09	CD-1 (845) Text Amendment: 728-796 Main Street and 205 Union Street	Support	I support this application to allow for the most in demand amenity Vancouver needs, social housing.	organization Fastmark Development	Sunset
