2024-11-21	14:04	Council Delegation of Authority to Approve the Form of Development	Oppose	I am very concerned with the removal of transparency and the removal of checks and balances that will occur if this item is approved. The public will be deprived of the opportunity to review the final drawings that are published with the "approval of form of development" agenda item. Doing away with this process will remove the opportunity for public scrutiny and comment. Approval of developments in our city is public business and it should be conducted in public, not in back rooms by City staff.	Catherine Rogers	Kensington-Cedar Cottage
