Report Date: February 5, 2025 Contact: Chris Robertson Contact No.: 604.873.7684

RTS No.: 17795
VanRIMS No.: 08-2000-20
Meeting Date: March 12, 2025
Submit comments to Council

TO: Standing Committee on City Finance and Services

FROM: General Manager of Planning, Urban Design & Sustainability

SUBJECT: Approval of 2025-26 Business Improvement Area (BIA) Budgets

Recommendations

- A. THAT Council approve the 2025-26 fiscal year Business Improvement Area (BIA) Budgets as described in this Report, approve grants to 22 BIAs totaling \$19,519,936 (to be disbursed as outlined in Table 1, column A).
- B. THAT Council instruct the Director of Legal Services to bring forward the appropriate rating by-laws to recover the amounts of these grants.

Purpose and Executive Summary

The purpose of this report is to request Council's approval of the twenty-two 2025-26 BIA budgets listed in Table 1, to approve recoverable grants to those BIAs, and to instruct staff to prepare appropriate rating by-laws. The grants, totalling \$19,519,936 will be recovered by a special property tax levy on eligible properties in the respective BIAs.

Council Authority/Previous Decisions

Under section 456(1) of the *Vancouver Charter*, Council may, by majority vote, grant money to an applicant that has the planning and implementation of a business promotion scheme as one of its aims, function or purpose. Section 455 defines 'business promotion scheme' as:

- carrying out studies or making reports respecting one or more business areas,
- the improvement, beautification or maintenance of streets, sidewalks or City owned land, buildings or structures in one or more business improvement areas,
- the removal of graffiti from buildings or structures in one or more business improvement areas.
- the conservation of heritage property in one or more business improvement areas, and

the encouragement of business in one or more business improvement areas.

Section 456(2) of the *Vancouver Charter* requires that the grants be recovered through a special tax levy on Class 5 (light industry) and 6 (business/other) properties in the BIA area.

City Manager's Comments

The City Manager concurs with the foregoing recommendations.

Context and Background

Funding for BIAs is advanced by Council as a grant and recovered through a special BIA tax levy on BC Assessment Class 5 and Class 6 properties within a designated area. For each of the BIA areas, Council has previously enacted a by-law designating the area and term of the BIA. The same by-law also prescribes the maximum aggregate levy amount that can be granted to each BIA during its term. In addition, for each of the BIAs, Council has enacted a grant allocation by-law which authorizes annual recoverable grants by resolution and prescribes terms and conditions for the grants. That by-law designates a not-for-profit society (a 'BIA') to receive the grant/levy money in each area. All of the recoverable grants to BIAs are raised by way of the BIA tax levies.

Each year, BIA boards are required to obtain approval of their forthcoming year's budgets from their members¹ at a general meeting. After membership approval, each BIA submits its budget to the City for approval by Council. Each BIA budget includes the BIA's requested grant amount for the coming year.

Once Council has approved the BIA budgets/grants, rating by-laws are prepared for Council's enactment. Each rating by-law authorizes the imposition of a levy on every qualifying property within the BIA area. Funding is released to the BIA societies beginning in April and recovered in July through the property taxes.

Prior to expiry of a BIA's designation by-law (usually after five or seven years), a BIA may request that Council consider re-designation (renewal) of the BIA for a further term. On renewal, the BIAs undertake an intensive consultation process with their membership which may include surveys, strategic planning and open houses. Typically, renewal is the time when significant BIA levy increases may be considered by BIA boards and their memberships. BIA levy increases do not affect general taxation.

Discussion

The BIAs listed in Table 1 below have all submitted their proposed 2025-26 budgets for Council's approval and have requested recoverable grants² in the amounts shown in column A. Business promotion schemes and budgets were approved by the majority of members present at each of the BIA societies' annual general meetings held in September and October 2024

¹ BIA members are eligible Class 5 (light industry) and Class 6 (business /other) property owners and business tenants who are voting members of their BIA managing society. BIA membership is obtained by way of application to the society.

² Grants to BIA societies are 'recoverable' because the funds are recovered by way of annual property tax levies on qualified Class 5 (light industry) and Class 6 (business /other) properties within the respective BIA boundaries.

(column B). For comparison, recoverable grants approved by Council for the previous fiscal year (2024-25) are shown in column C. The difference (%) between current and previous year recoverable grants is shown in column D.

TOTAL GRANTS /LEVIES	\$19,519,936		\$18,594,279	5%

BIA budgets are limited by the respective designation by-laws enacted by Council which prescribe the aggregate maximum levy over a BIA's term. BIAs will often request larger increases in their budgets at renewal, such as the Hastings North BIA (+35%), and the Cambie Village BIA (+15%). The Hastings Crossing BIA levy increased by 53% in the last year of its current term, the maximum amount allowed under the by-law. This is typical of BIAs in the last

³ The Mount Pleasant BIA recoverable grant for 2025-26 (\$905,652) is the sum of the levy for the original area (\$771,652) and the 2024 expansion area (\$134,000).

year of their BIA term and was approved by the membership at their AGM. The Collingwood BIA budget increased 32% due to the Joyce Street expansion area added during the renewal process this year.

BIA Budget Analysis and Comparison

The proposed 2025-2026 BIA budgets summarized in Table 2 (attached as Appendix A) are based on standardized information provided by each BIA society. The purpose of Table 2 is to facilitate comparative review and discussion of BIA revenues and expenditures. The template required for itemizing typical BIA expenditures by category is attached as Appendix B. Also attached, alphabetically, are copies of the detailed BIA budgets approved by BIA members at their respective AGMs (Appendices C - X).

A portion of BIA expenditures provide tangible benefits to the City (e.g., in the upcoming year, the BIAs will collectively expend over \$9.8 million on public realm enhancement, maintenance and community safety in the City's commercial areas). The City's cost for the BIA Program is limited to administration.

Financial Implications

The total requested funding for all 22 BIA societies is \$19,519,936 representing an increase of \$925,657 (approximately 5.0%) compared to the 2024-25 approved grants.

BIA members (Class 5 (light industry) and 6 (business /other) property owners and business tenants) approve the BIAs' budgets by vote at Annual General Meetings. As BIA levies average less than 5 percent of Class 5 and 6 property owners' commercial property tax bill, the overall impact is relatively small.

Should Council approve the BIA budgets and rating by-laws for enactment, these funds will be advanced by instalments to the BIA societies in April and October, and recovered through the 2025 property taxes. The 2025 operating budget for BIA revenues and offsetting expenditures will be adjusted to reflect the final Council approval. There is no net impact to the 2025 operating budget.

Legal Implications

If the Recommendation in this report is approved, Legal Services will prepare, for Council consideration and enactment, rating by-laws aimed at recovering the appropriate sums.

APPENDIX A SUMMARY OF PROPOSED BIA BUDGETS 2025-26

BIA budgets and financial information are summarized in Table 2 following this page. Table 2 is organized as follows:

- Column headings are for each the 22 BIAs.
- Top three rows contain information about each BIA's budget and renewal cycle.
- Remaining rows contain comparable budget and financial information by BIA:

Section A – Proposed Budgets

Section A summarizes the major revenues and expenses from each BIA's proposed 2025-2026 budget using standardized information submitted by the BIA in the form of a template.

<u>Section B – Additional Financial Information</u>

Section B includes additional financial information from the BIAs' audited financial statements submitted annually to the City as required. The financial statements provide transparency by reporting on background information beyond that normally contained in a budget. Specifically, Section B includes; a) information on year-end budget surpluses or shortfalls, and b) the status of reserve funds and/or retained earnings. The information is included because it is common practice among BIAs to hold in reserve the accumulated surpluses from previous years. Reserves provide the ability to fund budget shortfalls, respond to opportunities, and save for future projects.

¹ The additional financial information in Appendix A, section B, references *prior year-end* figures (i.e. year ending March 31, 2024) as submitted in the BIAs' most recent audited financial statement. A review of the BIAs' *2024-25* audited statements (year ending Mar 31, 2025) will be conducted as soon as they are available from their auditors.
