2025-03-28	17:11	Jericho Lands Official Development Plan	Other	<p>My concern is not what is in this plan but rather, what is not. Making provision for parks and a school should not just have sites agreed upon but rather a firm promise , not an allowance, that they be installed in the first phase of development. This also should include the affordable housing as well so that these amenities do not become a bargaining chip , and dropped for costs of development. False Creek development had major issues with the school trying to manage social development in a fast created community taking several years to build cooperation. I strongly am against high rises larger than 20 stories. Finally I have had the opportunity to work all over Vancouver for over 50 y years and love the planning of small communities . This current plan needs adjustments before it keeps the cooperative community connection in Kitsilano.</p>	Sherry Abramson	Kitsilano	
2025-03-29	00:11	Jericho Lands Official Development Plan	Other	<p>Monsieur le Président,</p> <p>Je me permets de vous adresser cette lettre, avec un cœur lourd de tristesse et d'espoir.</p> <p>Je suis un homme de 42 ans et ma femme a 38 ans. Nous avons toujours rêvé d'avoir des enfants, mais malheureusement, nous avons échoué dans nos tentatives précédentes. Nous avons essayé la fécondation in vitro en Algérie, mais malheureusement, cela a échoué.</p> <p>Notre rêve de devenir parents est en train de s'éteindre, comme une flamme qui s'éteint lentement. Nous sommes désespérés, Monsieur le Président. Nous sentons que notre vie est en train de s'écrouler, comme un édifice qui s'effondre sous le poids de la douleur.</p> <p>C'est pourquoi je vous demande, Monsieur le Président, de m'aider à obtenir un visa pour la Vancouver , afin que je puisse réaliser mon rêve d'avoir des enfants. , mais je besoin de votre aide pour obtenir le visa.</p> <p>Je sais que Vancouver, où je compte me rendre après avoir obtenu le visa, est un pays qui prend en charge les personnes qui demandent l'asile pour des raisons médicales, comme l'infertilité. Je sais que je peux compter sur la générosité et la compassion de ce pays pour réaliser mon rêve.</p> <p>Je vous remercie d'avance pour votre attention à cette affaire et pour votre générosité. Je suis convaincu que vous pouvez m'aider à réaliser mon rêve.</p> <p>Cordialement Merci Président «</p> <p>Sami Trad</p>	Sami Trad	I do not live in Vancouver

2025-03-31	13:37	Jericho Lands Official Development Plan	Other	I am writing GENERALLY about city council and officials making development decisions. You are all consulting aplenty with communities but ignoring the input. Where's the DEMOCRACY? I am so disgusted with you all ignoring THE PEOPLE living in the various locations, I no longer participate at all. It's a farce. Latest example in Point Grey, read Kerry Gold in the Globe and Mail "Residents' group despairs as Point Grey Village plan moves forward". I hope to vote every last one of you out next election. Shame on you.	Barbara Yaffe	Arbutus Ridge	
2025-04-02	20:23	Jericho Lands Official Development Plan	Other	SENIORS Perhaps late in the process: it would be great if there was a provision for housing, assisted or not, for seniors. This seems to be a major overlooked group in the planning. Many seniors, like myself, have been area residents for decades. We may wish to live out our remaining years in our beloved and familiar neighborhood. Perhaps a building allocated to that purpose?	William Boden	West Point Grey	
2025-04-07	15:15	Jericho Lands Official Development Plan	Other	Why is the city of Vancouver inviting me, a resident of Gibsons, BC, to participate in this public hearing?	Stewart Stinson	I do not live in Vancouver	Appendix A
2025-04-08	18:00	Jericho Lands Official Development Plan	Other	I am in general support of this project, but am concerned that the City is "putting the cart before the horse". Development of any large project like this, which will effectively double the west side population, should first upgrade (replace?) the old sanitary sewer system including the treatment facility, assure themselves that there is sufficient electrical power in the area, and improve the transportation corridors. The city needs to focus on getting the infrastructure in place so that projects like this can be successful. And these new projects should be bearing the lion's share of the upgrading costs, as they wouldn't really be needed if we weren't doing all this densification.	Doug Chivers	West Point Grey
