2025-04-16	14:45	CD-1 (25) Amendment: 3215 Macdonald Street	Support	I strongly support this building, which will add much needed homes to this neighbourhood. I lived a few blocks up before COVID, and could barely afford to live anywhere in the neighbourhood now, despite being no longer a student and having a well paying full time job, let alone the workers at the Shops up the road or the students at UBC. This building is actually likely smaller to what the neighbourhood needs for the future and for now, especially given that 2 frequent transit routes stop right in front of this building, and its within walking distance to Broadway and what will be a future transit station.	Blair Smith	Kensington-Cedar Cottage
