It's such a strange thing to either walk down Broadway or walk down this street and be aware that there are so few people on this block. To have access to Broadway and Main Street and Fraser is such a fortunate position. The fact that we still have two and three storey homes on on tiny lots is inexplicable. A building like this will absolutely fit in because this is IN the city. It's not in a small town, it's not in the suburbs, it's not the edge of the city. People want to live here and they can't. It's also located close to one of the future skytrain station. I want more of these 18- 20 story building that are one to 2 block away from the main road. This a benefit for the many. I support this change. Traffic is just a minor inconvenience against people that need to have a roof over their head.	Jonathan Paulin	Mount Pleasant
