The current proposal recommends only 10% of the units will be offered at “average city rent” . This is not affordable rental and this is not enough affordable housing to justify the size of this development. If the community is being asked to sacrifice community amenities and important view corridors the result should be lasting affordable housing legacy that serves Vancouverites.</p> <p>Thank you</p> <p>Lyndsay Poaps</p>	Lyndsay Poaps	Mount Pleasant
