2025-06-10	16:37	CD-1 Rezoning: 1780 East Broadway	Other	As a parent of 3 young children, I strongly support additional affordable housing and public childcare. This project is proposing a childcare facility with only 37 spaces, which means it won't even meet the demand for childcare generated by the project itself. I urge Council to request an amendment to this proposal so that at a minimum the childcare facility is expanded in order for it to address the broader demand in this neighborhood. Vancouver has a declining population of children, with a percentage way below all other Canadian municipalities. Childcare is a public investment that pays for itself, due to the long term economic returns it provides.	James Wilton	Fairview
