I live and work in Vancouver and support heritage retention, a new daycare (much needed!) and the public courtyard space and future laneway programming. The retail shops and services will only make this area more attractive and complement the nearby Tacofino, Purebread and breweries... all very walkable and close to transit! Please approve, thank you.	Claire Yang	Marpole

Light industrial and a diverse mixture of commercial spaces that allow for local businesses to grow and thrive. Spaces for offices of varied industries that are within city limits therefore easy to access without long commutes are few and far between. Much needed daycare facilities again within city limits allowing for young families to thrive within Vancouver. So important!	Patrick Ng

Olympic village is the best area in Vancouver and areas around the water shall be modern and attractive to tourists and vancouverites, and not be industrial areas.	Charlotte Morariu	Mount Pleasant
