2025-06-18	19:41	CD-1 Rezoning: 520-590 West 29th Avenue and 4510-4550 Ash Street	Support	This development meets the minimum density requirement for provincial housing. I think the density should be greatly increased, but I will take it as it is. This requirement for housing should greatly override the minor complaints about parking and blocking of views.	Gilbert Lang	South Cambie

Allowing 6 story development around skytrain stations is critical to solving the housing shortage and enabling more residents to have access to better transportation, housing, and employment options. Supporting this project is critical as it will provide renters options to live which are off of busy arterial streets. Please approve the project!	Haakon Koyote	Kitsilano

2025-06-30	09:59	CD-1 Rezoning: 520-590 West 29th Avenue and 4510-4550 Ash Street	Support	I've grown up on the West Side and am raising a family in greater vancouver and am constantly concerned about the amount of available housing stock for all members of our community, white collar and blue collar professions of all family makeups. I believe Sightline to consistently produce housing that considers singles, couples and families and feel they will carry on that ethos here. I support this project because it's in a nice area and near two major transit corridors and a commercial node in Cambie Village.	Theo Birkner	I do not live in Vancouver
