

The City of Vancouver is on the unceded traditional territory of the Musqueam, Squamish and Tsleil-Waututh First Nations.

These lands are the foundation of thousands of years of living culture of the Musqueam, Squamish and Tsleil-Waututh peoples.

We acknowledge həń'qəmińəm and Skwxwú7mesh as the original languages of these lands.

# today's agenda

- **KEY CHALLENGE/OPPORTUNITY: ECONOMY**
- **1** UPDATE: CLIMATE CHANGE ADAPTATION STRATEGY
  - a. about preparing for climate change
  - b. a look back at our successes
  - c. partner, collaboration and advocacy wins
- 2 UPDATE: CLIMATE EMERGENCY ACTION PLAN
  - a. about cutting carbon pollution
  - b. a look back at our successes
  - c. partner, collaboration and advocacy wins
- **3** THE 2025 DASHBOARDS
- 4 A LOOK AHEAD
- 5 CLOSING

#### key challenge and opportunity

Currently, a key

challenge

to our climate plans is the threat & uncertainty that US tariffs present to our economy, our budgets & our residents.

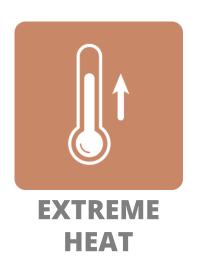

# Climate Change Adaptation Strategy

Our work prepares us for the biggest climate-related hazards facing Vancouver.

#### **Climate Change Adaptation Strategy**

5 HAZARDS

we planned for more resilient City assets

we built natural stormwater infrastructure

we improved heat safety & resilience for residents

we set new direction to help respond to drought & extreme rainfall

we built natural stormwater infrastructure

we improved heat safety & resilience for residents

we set new direction to help respond to drought & extreme rainfall

we planned for more resilient City assets

we improved heat safety & resilience for residents

we set new direction to help respond to drought & extreme rainfall

we planned for more resilient City assets

we built natural stormwater infrastructure

## 2024/2025 PARTNER & COLLABORATION WINS

improved thermal safety for residents at higher heat risk

### 2024/2025 PARTNER & COLLABORATION WINS

improved thermal safety for residents at higher heat risk

stewarded urban forest

improved thermal safety for residents at higher heat risk

stewarded urban forest

#### 2024/2025 PARTNER & COLLABORATION WINS

#### 2024/2025 PARTNER & COLLABORATION WINS

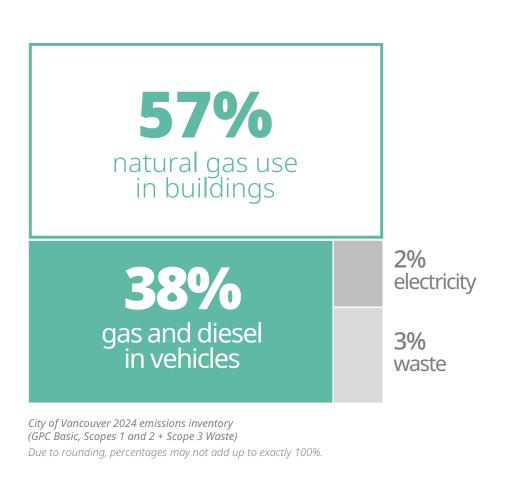

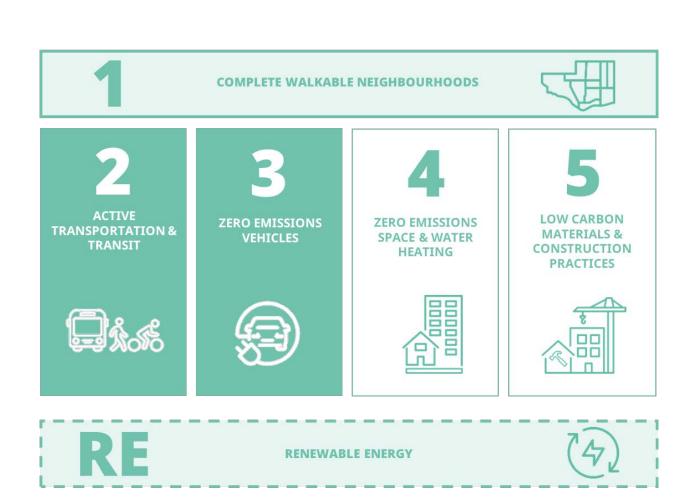

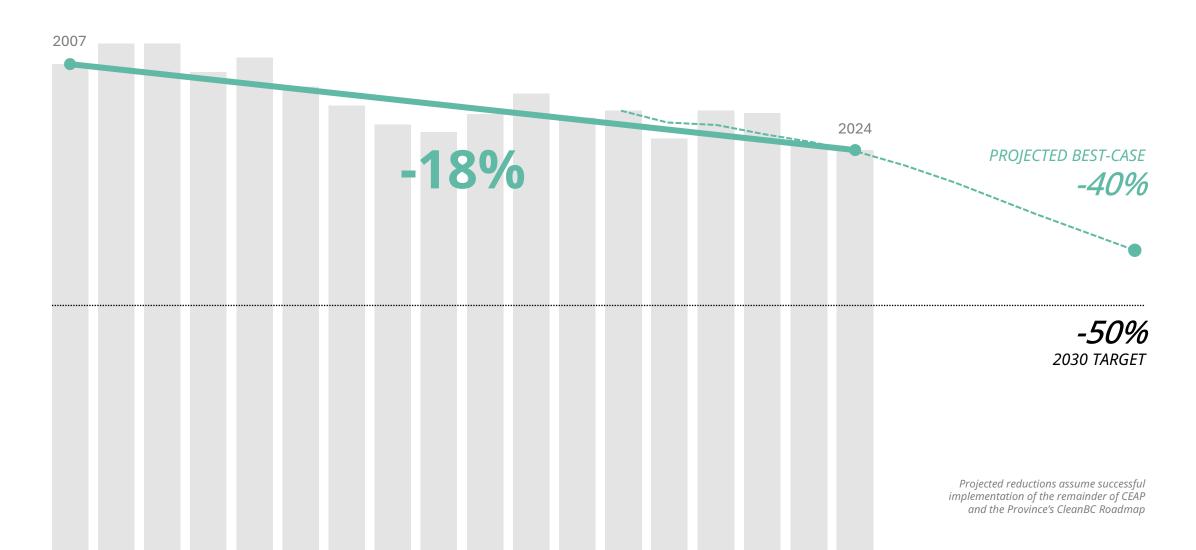

# Climate Emergency Action Plan

#### Our work tackles the largest sources of carbon pollution generated in Vancouver.

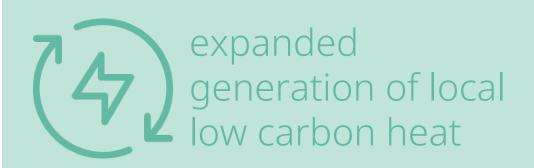

#### We have cut carbon pollution by 18% since 2007 and are on track to achieve a 40% reduction by 2030.

we grew charging network in rental buildings

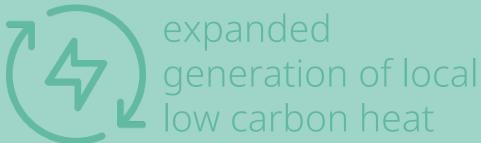

we lowered energy demand in new buildings

we lowered energy demand in new buildings

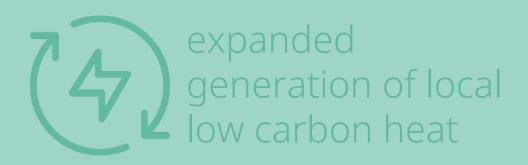

we lowered energy demand in new buildings

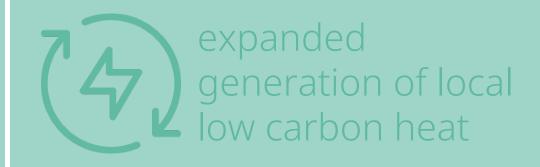

we lowered energy demand in new buildings

minimizing embodied emissions in low rise homes

## 2024/2025 PARTNER & COLLABORATION WINS

secured transit funding for next three years

### 2024/2025 PARTNER & COLLABORATION WINS

#### **2024/2025** PARTNER & COLLABORATION WINS

minimizing embodied emissions in low rise homes

minimizing embodied emissions in low rise homes

# 3 2025 dashboards

#### See the 2024-2025 Annual Report Dashboards for detail.

#### We are improving climate reporting for the next reporting cycle.

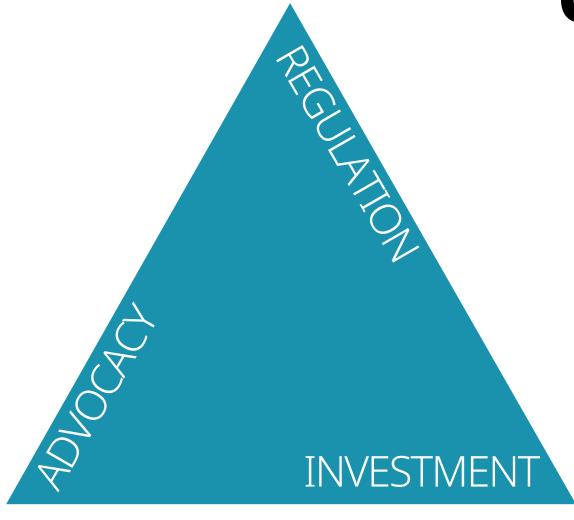

Measuring the City's efforts and progress

CEAP

Policy **scenarios**; carbon outcome **ranges** 

# 4 A look ahead

#### **City tools**

#### Council will receive 14 reports over the next year\* with recommendations to advance climate action\*\*.

#### adaptation

<sup>\*</sup> All dates are subject to change.

#### mitigation

Q3 2025	green building incentives
	hydrogen option for lower business licence fees for gas station & parking lots
	low-rise, mid-rise & tower district schedule & pre-zoning
Q4 2025	embodied carbon reduction requirement in VBBL & incentives
	climate budget & public infrastructure investment framework
2026	detached home space heating regulations at time of replacement
	villages
	climate & transportation chapters in the ODP
	vision zero report

<sup>\*\*</sup> Council reports listed have the potential to advance the City's climate objectives; however, climate may not be their primary focus.

# 5 Thank you.
