Our team has been working for four years toward the inclusion of these important amendments to the Zoning and Development By-law and the Licence By-law. Establishing clear and supportive regulations will not only legitimize and guide this emerging industry but also position Vancouver as a leader in innovative health and wellness infrastructure. Creating a defined framework will give operators clarity, ensure public safety, and encourage sustainable growth — making Vancouver more welcoming to wellness-focused, community-oriented businesses that enhance both public health and urban vibrancy. New wave of bathing culture is here to stay and we all wanna live in a city that welcomes this.	Valtteri Rantala	Kitsilano
